

# Texas Department of Motor Vehicles

## Senate Bill 876 Implementation

- Real County is **NOT** a willing county, use of an address validation software to verify Texas resident county in the following order:

- Validation of the following statutorily required counties based on data elements within the title transaction, when available:
- Purchaser County (determined from resident county through the address validation)
- Dealer County (determined from address associated to dealer license number)
- Seller County (determined from previous Texas owner's resident county) • Lienholder County (determined from lienholder address validation)
