ADDENDUM # 5

- 1. Page 92, Attachment A: Attachment A Version 2 (v2) has been revised to include 2 new site locations and 2 original site locations have been removed. Included are available site photos for each site. Attachment A, Version 2 (v2) has been attached to this Addendum #5.**
- 2. Addendum #1, Number 2 & Addendum, #1 Number 3: Attachment C & D have been updated to include sample pricing sheets for turn-key and value-added services respectively from the changes in Addendum #4. Please note the Attachments C & D Versions 2 (v2) can be modified according to each proposers' Technical Implementation plan to provide turn-key or value-added radio system network services, as the proposer deems appropriate, to include services, equipment, installation, and maintenance, on a unit price basis, overlooked in the development of this RFP 2024-305 and its' Attachments C & D.**

Site survey and tower mapping numbers are now to be estimated at 14 sites with installations of 12 antennas, connection lines and base equipment where one or both the Sheriff's Office or Fire Department radio equipment does not currently exist. Only 11 sites are preliminarily included for FAA and/or FCC permits and tower loading studies, which exclude the Centerville, Flo, and River Towers.

If a proposer intends to include the 3 excluded sites (Centerville, Flo, and River Towers) for tower loading studies and permitting, please price each on Attachment D and explain the reasoning in proposal section 12. Value-Added Proposal.
