

November 8th Election

Partial Manual Count - Data Entry for HUTCHINSON COUNTY

- The race and precincts you are required to report on are listed below.
- For the selected race, all optical/digital scan devices used by this county are listed.
- If the optical/digital scan device was used by a precinct/polling place for Election Day voting, please provide the results of the electronic and manual counts for the selected race.

Electronic Count: Report all election day and early voting (in-person and by mail) totals obtained using a precinct or central scanner. **DO NOT** include any ballots that **were not** run through a precinct or central scanning device in this total. Add the numbers to the appropriate column labeled Early Voting By Mail Electronic County or Election Day Electronic Count.

Partial Manual Count: Hand count all applicable electronically tabulated votes for the assigned precincts. You should be hand counting all ballots that were counted by a precinct or central scanner. Add the numbers to the column labeled Early Voting By Mail Hand County or Election Day Hand Count.

For Counties using DRE voting Machines for either Early Voting in Person or Election Day: Please place zeros in the columns (Early Voting or Election Day) in which you used DREs and you did not have paper ballots that were counted using a precinct or central scanner.

For Counties using the Texas Specific Definition of a DRE Voting System: If your county is part of the countywide polling place program, AND you are using a paper based system (EX: ExpressVote/DS200 or Verity Duo/Verity Scan combination) for your election, please list the name of your assigned polling place in the box labeled "Alternate Precinct."

For Counties that opted to count all of their Early Voting by Mail Ballots as part of the partial manual count: Please contact the SOS for reporting instructions.

Please provide counts and click Save. You can leave this screen and return later by clicking the Log Off button below.
