Set up an Outlook account on the iOS Mail app

If you're trying to sign in to Office with your Microsoft account, you may get a message asking you for parental permission or to verify your age.

For more information about why you're seeing this and how to resolve it, see [Parental consent and Microsoft child accounts](#).

Microsoft 365

Set up a Microsoft 365, Exchange, or Outlook email in the iOS Mail app

- Go to your iPhone or iPad's **Settings** > scroll down and tap **Accounts & Passwords** > **Add Account**.

Note: If you're on iOS 10, go to **Mail** > **Accounts** > **Add Account**.

- Select **Exchange**.

- Enter your Microsoft 365, Exchange, or Outlook email address and a description of your account. Tap **Next**.

Tap **Sign In**.

Note: Tap **Configure manually** if you need to enter server settings.
- Enter the password associated with your email account. Tap **Sign in** or **Next**.

- The Mail app may request certain permissions. Tap **Accept**.

- Choose the services you want to sync with your iOS device and tap **Save**. You're done!

Having trouble? We can help.

If you still need help setting up email on your iOS device, tell us about your question in detail using the comment box below so we can address it in the future.

For the best experience, we recommend the [Outlook for iOS mobile app](#). For troubleshooting tips, see [Troubleshoot email setup on mobile FAQ](#).

You can also contact support:

- If you are having issues with the iOS Mail app, contact [Apple Support](#).
- If you have a Microsoft 365 work or school account that uses Microsoft 365 for business or Exchange-based accounts, talk to your Microsoft 365 admin or technical support.
- For all other accounts, contact [Microsoft support](#).
