Re: Ector County Permits

Ector County does not enforce development zones in the un-incorporated areas of the County.

Ector County requires a Development Structure permit and a Drive Approach permit for the dwellings or businesses in the un-incorporated areas of Ector County.

Ector County does not issue Certificates of Occupancy.

Ector County does not require permits for installation of solar panels in the un-incorporated areas of Ector County.

Ector County does not require permits for installation of Fire Suppression Systems in the un-incorporated areas of Ector County.

Ector County requires a permit for the installation or repair of an On-Site Sewage Facility (septic system).

Tower construction or modification near the Schlemeyer Field Airport must meet any applicable FAA requirements no other permits are required.

If I can be of any further assistance, please contact me.
