

INVESTMENT POLICY FOR THE COUNTY OF FALLS, STATE OF TEXAS

I. POLICY STATEMENT

It is the policy of Falls County, Texas, that the administration of its funds and the investment of those funds shall be handled at its highest public trust. Investments shall be made in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow needs of the County and conforming to all applicable state and local statutes governing the investment of public funds. The receipt of a market rate of return will be secondary to the requirements for safety and liquidity. It is the intent of the County to be in complete compliance with the Texas Public Funds Investment Act. The earnings from investments will be used in a manner that best serves the public trust and interests of the County.

II. SCOPE

This investment policy applies to all the financial assets of the County. The County maintains a general fund, special revenue funds, a debt service fund, and trust and agency funds which are accounted for in the Annual Financial Report (Section 2256.005(d)).

III. PRUDENCE

Investments shall be made with judgement and care, under circumstances than prevailing, which persons of prudence, discretion and intelligence, exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived (Section 2256.006(a)).

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments (Section 2256.006(b)).

IV. OBJECTIVES AND STRATEGY

It is the policy of the County that all funds shall be managed and invested with these primary objectives, listed in order of their priority: safety, liquidity, diversification, and yield. These objectives encompass Section 2256.005(b) and Section 2256.006.

Safety of principal is the foremost objective of the investment program. Investments of the County shall be undertaken in a manner that seeks to insure the preservation of capital in the overall portfolio. The suitability of each investment decision will be made on the basis of these objectives.

Liquidity

The County's investment portfolio will remain sufficiently liquid to enable the County to meet all operating requirements which might be reasonably anticipated.

Diversification

Diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio (Section 2256.005(b)(3)).

Return on Investment

The County's investment portfolio shall be designed with the objective of attaining a rate of return throughout budgetary and economic cycles, taking into account the County's risk constraints and the cash characteristics (Section 2256.005(b)(3)).
