- » Since 1999, NextEra Energy Resources' subsidiaries have been helping fuel the state's economic growth and quality of life, and moving our country toward energy independence.
- » Our subsidiaries own and operate wind energy centers in more than 15 counties in addition to two utility-scale solar energy centers, one battery energy storage system, a portfolio of distributed energy resources and six natural gas pipelines in the state. We also have several projects in development.
- » Wind farms are compatible with ranching and are fast becoming an important component of farm viability in many areas across the country.

About NextEra Energy Resources
