Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

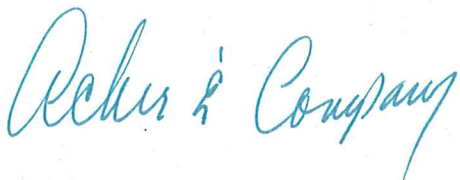

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Fannin County Public Facility Corporation as of September 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

FANNIN COUNTY PUBLIC FACILITY CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2017

Note 1 – Nature of Activities and Significant Accounting Policies

(a) Nature of Activities

Fannin County Public Facility Corporation (the Corporation) was formed on April 28, 2008 for the purpose of acting on behalf of Fannin County, Texas to finance, refinance or provide the costs of public facilities of the County pursuant to the provisions of the *Texas Public Facility Corporation Act*, Chapter 202 of the Local Government Code. The Corporation is authorized to issue bonds on behalf of the County for the purposes of Section 102, Internal Revenue Code of 1986, as amended. The Corporation is supported primarily through investment earnings and revenues received from imprisoning and housing inmates.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(c) Property and Equipment

It is the Corporation's policy to capitalize property and equipment over \$5,000. Lesser amounts are expensed. Purchased property and equipment is capitalized at cost. Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as unrestricted contributions unless the donor has restricted the donated assets to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Corporation reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Corporation reclassifies temporarily restricted net assets to unrestricted net assets at that time. Property and equipment are depreciated using the straight-line method, with lives ranging from 7 to 40 years.

Note 1 – Nature of Activities and Significant Accounting Policies (continued)

(d) Financial Statement Presentation

The Corporation is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

- a. Unrestricted Net Assets – Net assets not subjected to donor imposed stipulations. Although unrestricted, certain cash funds are restricted as to use by bond covenants.
- b. Temporarily Restricted Net Assets – Net assets subject to donor imposed stipulations that may or will be met, either by actions of the Corporation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.
- c. Permanently Restricted Net Assets – Net assets subject to donor imposed stipulations that they be maintained permanently by the Corporation. Generally, the donors of these assets permit the Corporation to cause all or part of the income earned to be used for general or specific purposes.

(e) Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted net assets depending on the existence or nature of any donor restrictions.

(f) Income Taxes

The Corporation is a public corporation, constituted authority and authorized to issue bonds on behalf of Fannin County for the purposes of Section 103 of the Internal Revenue Code. As such it is exempt from income taxes.

(g) Cash and Investments

For the purpose of the statements of cash flows, the Corporation considers highly liquid investments available for current use with an initial maturity of three months or less to be cash and investments.
