

Water Providers in Harrison County

Municipal Water User Groups

Public water systems provide potable water for public use and have at least 15 service connections or serve at least 25 individuals at least 60 days out of the year. Public water systems that provide more than 100 acre-feet of water per year for municipal use are considered municipal water user groups and are individually planned for in the regional water planning process. Note that some municipal water user groups include more than one public water system. Table 1 lists the Harrison County municipal water user groups for the 2026 regional water plan and associated public water systems that are located in the county.

Table 1. Harrison County municipal water user groups and associated public water systems

Water User Group	Associated Public Water Systems(s)
Blocker Crossroads WSC	BLOCKER CROSSROADS WSC (TX1020077) ^R
Cypress Valley WSC	CYPRESS VALLEY WSC PLANT 1 (TX1020020) ^{R**} ; CYPRESS VALLEY WSC PLANT 2 (TX1020088) ^{R**}
Diana SUD*	DIANA SUD (TX2300006) ^R
Elysian Fields WSC*	ELYSIAN FIELDS WSC (TX1020014) ^R
Gill WSC*	GILL WSC (TX1020021) ^R
Gum Springs WSC	GUM SPRINGS WSC 1 (TX1020026); GUM SPRINGS WSC 2 (TX1020081)
Hallsville	CITY OF HALLSVILLE (TX1020004) ^R
Harleton WSC*	HARLETON WSC (TX1020074) ^{R**}
Leigh WSC	LEIGH WSC-RURAL (TX1020022) ^R
Longview*	CITY OF LONGVIEW (TX0920004)
Marshall	CITY OF MARSHALL (TX1020002)
North Harrison WSC	NORTH HARRISON WSC (TX1020018) ^R
Panola-Bethany WSC*	PANOLA-BETHANY WSC (TX1830011) ^R
Scottsville	CITY OF SCOTTSVILLE (TX1020006)
Talley WSC	TALLEY WSC (TX1020023) ^{R**}
Tryon Road SUD*	TRYON ROAD SUD (TX0920021)
Waskom	CITY OF WASKOM (TX1020003) ^R
West Harrison WSC	WEST HARRISON WSC (TX1020078)

^R Public water system meets the definition of a rural political subdivision as defined in [Texas Water Code 15.001\(14\)](#).

* Water user group is split by more than one county. Public water systems associated with the water user group and located in Harrison County are shown.

** Current records show that the public water system did not submit a water use survey response in 2023.

County-Other Water Systems

County-other water systems are a subset of public water systems that provide on average less than 100 acre-feet of water per year for municipal use. For TWDB planning purposes, the following systems will be grouped together and planned for under the County-Other, Harrison water user group category in the 2026 regional water plan:

- BIG OAK MHP (TX1020061)
- CADDO LAKE WSC (TX1020019)^R

- CLEARWATER DISTRIBUTION (TX1020063)
- CYPRESS VILLAGE WATER SYSTEM (TX1020047)
- HALLELUJAH HILL MHP (TX1020085)
- HOLIDAY SPRINGS MOBILE HOME PARK (TX1020028)**
- JOHNSON MOBILE HOME PARK (TX1020080)
- NORTH PARK MOBILE HOME PARK (TX1020095)
- OLD TOWN WSC (TX1020067)^R
- SHADOWOOD WATER CO (TX1020011)**
- SOUTHFORD MOBILE HOME PARK (TX1020066)
- WASKOM RURAL WSC (TX1020054)^R

^R Public water system meets the definition of a rural political subdivision as defined in [Texas Water Code 15.001\(14\)](#).

** Current records show that the public water system did not submit a water use survey response in 2023.

Status of Water Systems and Supply

This section highlights potentially vulnerable water systems in Harrison County that serve a population of 7,500 or less and rely on a single water source and systems that have recently reported having 180 days or less of available supply.

Entities that are identified as 7,500 / sole source

The following entities were identified in the 2021 North East Texas (D) Regional Water Plan as having a 2010 population less than 7,500 and relying on a sole source for their water supply regardless of whether that water is provided by a wholesale water provider. These entities are highlighted since they may be more vulnerable in times of drought or in the event of a loss of water supply.

- Blocker Crossroads WSC
- Leigh WSC
- North Harrison WSC
- Panola-Bethany WSC*
- Scottsville
- Waskom

* Water user group is split by more than one county.

The 2021 North East Texas (D) Regional Water Plan presents potential emergency response options for entities with populations less than 7,500 that rely on a sole source and county-other water user groups in the region. Emergency response options could potentially include addition of a local groundwater well, trucking in water, importing supply from a nearby entity, or utilizing existing emergency interconnects. For the temporary emergency response options identified for entities in Harrison County, see [Chapter 7](#) of the 2021 North East Texas (D) Regional Water Plan.

180-day Priority List occurrences

Retail public utilities are required by the Texas Commission on Environmental Quality (TCEQ) to report when the utility is reasonably certain that its water supply will be available for less than 180 days. Between January 2016 and November 2023, no public water systems in Harrison County reported having approximately 180 days or less of water supply remaining.
