**GENERAL INFORMATION:** Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submit the rates to the governing body by August 7 or as soon thereafter as practicable.

This worksheet is for **school districts with Chapter 313 agreements only**. School districts that do not have a Chapter 313 agreement should use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) should use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

All other taxing units should use Comptroller Form 50-856 *Tax Rate Calculation, Taxing Units Other Than School Districts*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides detailed information on and guidance to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, the information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

### SECTION 1: No-New-Revenue Tax Rate

The no-new-revenue (NNR) tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of revenue if applied to the same properties that are taxed in both years (no new taxes). When appraisal values increase, the NNR tax rate should decrease.

Chapter 313 agreements allow a school district to limit the value of certain qualified property subject to the agreement for the purposes of maintenance and operations (M&O) taxation. The value of the same property is not limited for the purposes of debt service, or interest and sinking (I&S) taxation. School districts that have entered into a Chapter 313 agreement must calculate the NNR tax rate for M&O and I&S purposes separately and then add together to determine the current year total NNR tax rate.

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
1.	<b>2019 total I&amp;S taxable value.</b> Enter the amount of 2019 taxable value on the 2019 tax roll today. Include any adjustments since last year's certification; exclude one-fourth and one-third over appraisal corrections made under Tax Code Section 25.25(d) from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 8). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2). <sup>1</sup> This also includes the taxable value of property subject to a Chapter 313 agreement prior to the limitation.	\$ <u>742,899,270</u>
2.	<b>2019 tax ceilings.</b> Enter 2019 total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. <sup>2</sup>	\$ <u>20,881,900</u>
3.	<b>Preliminary 2019 adjusted I&amp;S taxable value.</b> Subtract Line 2 from Line 1.	\$ <u>722,017,370</u>
4.	<b>2019 taxable value not subject M&amp;O taxation, due to limitation under Tax Code Chapter 313.</b> <b>A. 2019 I&amp;S value of property subject to Chapter 313 agreement.</b> Enter the total 2019 appraised value of property subject to a Chapter 313 agreement: ..... \$ <u>280,779,000</u> <b>B. 2019 M&amp;O value of property subject to Chapter 313 agreement.</b> Enter the total 2019 limited value of property subject to a Chapter 313 agreement: ..... - \$ <u>60,000,000</u> <b>C. **SECTION 2: Voter Approval Tax Rate**

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates.<sup>18</sup>

- Maximum Compressed Tax Rate (MCR):** A district's maximum compressed tax rate is defined as the tax rate for the current tax year per \$100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment.<sup>19</sup>
- Enrichment Tax Rate (DTR):** <sup>20</sup> A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than \$0.17. The enrichment tax rate is divided into 'golden pennies' and the 'copper pennies.' School districts can claim up to 8 'golden pennies,' not subject to compression, and 9 'copper pennies' which are subject to compression with any increases in the guaranteed yield.<sup>21</sup>
- Debt Rate:** The debt rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The MCR and DTR added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debt service.<sup>22</sup>

A school district may adopt a M&O tax rate that exceeds the MCR in order to maintain the 2020-2021 school year basic allotment if it meets certain requirements and receives approval from TEA. Refer to Education Code, Section 48.2553 for more information.

A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district's website 30 days prior to the election.<sup>23</sup> Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two-year period following the date of the declaration without conducting an efficiency audit.<sup>24</sup>

Districts should review information from TEA when calculating their voter-approval rate.

**SECTION 3: Voter Approval Rate Adjustment for Pollution Control**

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.
