## **COUNTY OF WILSON**

---

May 14, 2020

Another week has gone by and yes there has been change. More people are venturing out into the public, more cars are on the roads and streets, and some businesses are open. It is hard to tell that we are not back to normal. Businesses that open, do so at 25% of their occupancy rate and some businesses will be allowed to open on May 18<sup>th</sup> at this same rate. And some have not been cleared by the Governor to go back to work.

Some people will respect your personal space and abide by social distancing and some will not, this is where you will have to decide whether you want to chance being exposed to the coronavirus or be exceptionally diligent about your social distancing or in fact stay at home isolated. You will have the opportunity to attend church and graduations while practicing social distancing; these are places where everyone is excited or emotional and invariably will want to hug each other, please limit these embraces to members of the same household.

Here in Wilson County we are dealing with about the same number of active cases of COVID-19 as we are recovered. As of Wednesday May 13 we had a total number of 36 positive cases of COVID-19 with 20 recovered, 12 active cases, and 4 deaths. 10 of the active cases are residents of the Frank Tejeda Veterans Home, all of these residents are either isolated at the Veteran's Home or in a Bexar County Hospital.

Let's pray that this Pandemic is on the downturn and there is not a resurgence of cases, pray a cure is found, and pray a vaccine is made available soon. As for now stay home and stay safe.

Wilson County Judge

Richard L. Jackson
