

Confused About Where to Go for Care?

SmartER CareSM options may save you money.

If you aren't having an emergency, deciding where to go for medical care may save you time and money.

You have choices for where you get non-emergency care — what we call SmartER Care. Use the chart below to help you figure out when to use each type of care.

When you use in-network providers for your family's health care, you usually pay less for care. Search for in-network providers in your area at <https://mybenefits.counity.org>. Select **Get Connected** and click on the **Blue Cross and Blue Shield** link. Use the information on your member ID card to complete the process. You may also call the Customer Service number on the back of your member ID card.

Freestanding ER

- Open 24 hours, seven days a week
- Could be transferred to a hospital-based ER depending on medical situation
- Services do not include trauma care
- Often freestanding ERs are out-of-network. If you receive care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- All freestanding ERs charge a facility fee that urgent care centers do not. You may receive other bills for each doctor you see.⁵

\$\$\$\$

Hospital ER

- Open 24 hours, seven days a week
- Average wait time is 4 hours, 7 minutes⁴
- If you receive care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- Multiple bills for services such as doctors and facility

\$\$\$

Urgent Care Center

- Generally includes evenings, weekends and holidays
- Often used when your doctor's office is closed, and you don't consider it an emergency
- Average wait time is 16-24 minutes³
- Many have online and/or telephone check-in

\$\$

Retail Health Clinic

- Based upon retail store hours
- Usually lower out-of-pocket cost to you than urgent care
- Often located in stores and pharmacies to provide convenient, low-cost treatment for minor medical problems

\$

Doctor's Office

- Office hours vary
- Generally the best place to go for non-emergency care
- Doctor-to-patient relationship established and therefore able to treat, based on knowledge of medical history
- Average wait time is 18 minutes²

\$

Virtual Visits

- Available 24 hours a day, seven days a week
- Access to care for non-emergency medical issues whether you're at home or traveling
- Based on your location, have a doctor or behavioral health professional visit by phone at **888-680-8646**, online at **MDLIVE.com/bcbstx** or with the MDLIVE[®] mobile app¹
- Average wait time is less than 20 minutes
- Powered by MDLIVE

\$

If you need emergency care, call 911 or seek help from any doctor or hospital immediately.

¹Internet/Wi-Fi connection is needed for computer access. Data charges may apply. Check your cellular data or internet service provider's plan for details. Non-emergency medical service in Idaho, Montana and New Mexico is limited to interactive audio/video (video only), along with the ability to prescribe. Non-emergency medical service in Arkansas is limited to interactive audio/video (video only) for initial consultation, along with the ability to prescribe. Behavioral Health service is limited to interactive audio/video (video only), along with the ability to prescribe in all states. Service availability depends on location at the time of consultation.

Deciding Where to Go? Virtual Visit, Doctor's Office, Retail Clinic, Urgent Care or ER.

24/7 Nurseline²

The 24/7 Nurseline can help you identify some options when you or a family member have a health problem or concern. Nurses are available at **800-581-0393**, 24 hours a day, seven days a week, to answer your health questions.

Urgent Care Center or Freestanding ER Knowing the Difference Can Save You Money

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs may be higher. A visit to a freestanding ER often results in medical bills that may be 10 times the rate charged by urgent care centers for the same services.³ Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but have the word "Emergency" in their name or on the building.
- Are open 24 hours a day, seven days a week.
- Are not attached to and may not be affiliated with a hospital.
- Are subject to the same ER member share which may include a copay, coinsurance and applicable deductible.
