

## Jackson County Communities, Hazard Mitigation Plan

### Public Involvement/Participation

A partnership of local governments and other stakeholders in Jackson County are working together to create a Jackson County Hazard Mitigation Plan. Community input and involvement is instrumental in the development of a mitigation plan update that truly reflects the perceptions and needs of Jackson County residents.

We have developed a community survey and would like as much input from Jackson County residents, businesses, and interested citizens as possible. Please take a few minutes to fill out this survey so that your ideas may become a part of the plan to make Jackson County a safer and more resilient county!
