Re: Heuresis HBI-120 Sole Source

To Whom It May Concern,

Heuresis Corporation is the manufacturer and sole US distributor of the HBI-120 handheld backscatter x-ray imager. It is not offered domestically through distributors or dealers.

Our system is the only handheld backscatter x-ray imager on the market with dimensions that do not exceed 24 cm x 22 cm x 17 cm to facilitate operation in confined areas of motor vehicle interiors which would not be possible with a larger system. These dimensions also facilitate operation in confined areas beneath motor vehicles which would not be possible with a larger system. The Heuresis instrument is the lowest weight handheld backscatter x-ray instrument available, with the display built into the body of the device; it therefore does not have the inconvenience of a clip-on attachable or detachable tablet. A detached display requires a second operator, while a clip on attachable display adds additional bulk, weight and size to the exterior of the unit, could fall off, and also be difficult to see images while taking scans. With our smaller sized unit, the operator can view the display and see the image in real time during scanning. The user does not have to depend on Bluetooth or other wireless communications with a separate tablet to be working in order for the instrument to work. Our handheld x-ray unit is the only one that uses a flexible, fully-supported operating system that is integrated into the scanning unit — without the use of a separate, or attachable/detachable system-control tablet that requires a wireless connection to remain intact. Also, there is no proprietary software suite to learn in order to use the instrument.

While other x-ray backscatter imagers are available, the HBI-120 is the first ever handheld imager that can scan up to a square foot per second with only 5W of power, and still produce high-contrast backscatter x-ray images of concealed threats through steel vehicle fenders, steel doors, bumpers, exhaust manifolds, dashboards, seats and tires. It can also be used to find concealed threats behind walls, in shipping containers, and in boxes and packages. By producing high-quality images while operating at the lowest wattage available on the market, we provide the smallest, lightest, and safest unit on the market.

Taxes. In sales transaction instances where Sales Prices do not include applicable taxes or duties, the Buyer is solely responsible for paying all applicable taxes and duties. Under these circumstances, where the HEURESIS CORP Sales invoice excludes State, County, and/or Local Sales Tax, it should be inferred that either (1) HEURESIS CORP has not attained NEXUS status in the State where the Buyer resides, and the Buyer is solely responsible for calculating, remitting and filing the appropriate tax and duties incurred, or (2) The Buyer has declared tax exemption status, and has forwarded the applicable Exempt certificates to HEURESIS CORP, prior to the Sales invoicing transaction.

HEURESIS CORP will add sales taxes to the sales price where required by applicable law and Buyer will pay such taxes unless Buyer provides HEURESIS CORP with a duly executed sales tax exemption certificate. If Buyer is required by law to withhold any amount of tax from its Payment to HEURESIS CORP, Buyer will take all reasonable steps to minimize such withholding tax, provide HEURESIS CORP with a receipt or certificate as evidence the tax has been paid, and reimburse HEURESIS CORP for the amount of withholding so that HEURESIS CORP receives Payment for the full value of the invoice.
