ARCHIVE PLAN

Introduction

Currently, this office is the custodian of records dating back to the mid 1800's. We are transferring records that were initially only on paper, and those on microfilm, into a digital format and into one program that can be easily retrieved for county and public use. Our ultimate goal is for the District Clerk, Judges and Attorneys to use a more efficient and "paper-on-demand" system. With our current and rising workload, the instilment of a paper-on-demand system with efficient, easy retrieval will be pivotal to the success of the program. The Supreme Court mandated that all counties in Texas (Navarro County by January 1, 2016 and criminal by January 1, 2019) accept electronic filings starting January 1, 2014.

Designation of Court Documents subject to the plan:

All civil and criminal case files, pending, final or disposed. Any other document filed in this office that is subject to the District Clerk's retention schedule.

The Process

To accomplish the disposition of records dating back 160+ years, different methods will be considered.

The archiving of the continuity of records filed daily is done through our software program. Items are scanned to the case management system as they come in and are categorically linked to case numbers and names as an index. Older records that are only on paper are not secondarily stored anywhere else. If they are damaged, lost or destroyed; they are gone.

Our current process digitizes documents, but leaves us with the task of delegating different retention dates of records to see what can be destroyed. The Texas statutes are very complex on the subjects of what documents can be destroyed and when those said documents can be destroyed.

With my office, the judges and the D.A. working toward the same software solution, I see no reason why this initiative would not lead to a more efficient process and help with the reduction of paper.

The Goal

I, as Clerk of the 13th Judicial District, hope to reproduce and archive all documents, regardless of type, as efficiently as possible. I want to achieve, produce and maintain a navigable and organized records vault. The District Clerk's office is also planning the process of restoring historical hand-written records, suspending their deterioration and improving public access.

To complete our efforts toward electronic storage of all case files, we envision maintaining closed cases on our shelves for a short period of time and using computers to access information instantly. This would ultimately lead to a paperless process.

With less cost to the county taxpayers long-term, we will continue this ongoing and efficient process by using the archive and technology fee, coupled with assets allocated to records management by the Navarro County Commissioner's Court, to cover the cost of scanning paper source documents. In addition to preserving the documents, the images will be added to our case management system. This will improve our customer service relations and allow for ease of access to Public Information. Additionally, significant space savings will be realized once paper documents are destroyed.

A portion of the closed cases have been scanned and preserved. Older tri-fold cases (1850's and up civil and tax) are a little more hands on. Our retention schedule requires us to keep everything prior to 1951. The approximate cost of this program currently is \$1.25 per document. If the documents are placed in a flat, acid free folder, indexed or styled with the cause number(s) and name(s), it is estimated at \$.45 per document. This includes restoration, a digital and the hard copy sent back to me in the acid free folder in plastic tote boxes, and they keep a secured microfilmed copy on record at the company headquarters. It costs roughly \$1000.00 to fully restore a hand-written, leather bound minute or index book. Several of these as well as an original indictment from infamous outlaw John Wesley Hardin were recently restored. With a competitive market and a fiscally conservative plan, there is no way to know an exact figure that it would take to get our records entirely in order. With the courthouse restoration complete, I plan to use the funds collected from filing fees provided under these statutes, with

Commissioner Courts approval, to digitize and consolidate as many permanent records as possible. The renewal of the state mandated fees are imperative to the integrity and accuracy of our archival program.

Possible Expenditures, including but not limited to:

- Computer hardware, including any and all peripherals necessary,
- Computer software,
- Service provider and other outsourcing services,
- Relevant staff salary
- Data storage supplies
- Travel expenses to and from a service provider to deliver and pickup case documents, if necessary.
- Offsite storage unit costs
- Document restoration

***UPDATE:**

We have completely filled the vault and storage with functional shelving and are consolidating tri-fold cases into flat file folders to reduce space (with part-time help).

We hope to be one of the first counties to utilize researchtx when it is available to integrated Odyssey clients. Since we are integrated, cloud based and now have the DA's office going live with Odyssey...we will be able to offer the attorneys and public a customized version of public access of our court records at no additional charge to the county or citizens. It is with great anticipation that with this flow of information at the hands of litigants and customers, we can reduce the amount of paper printed for all caseloads and decrease yet another expense.

There are very few shelves left for expansion in the vault or storage so I feel we are on the right path with our digitization efforts in order to reduce the "paper footprint" for years to come and have all documents retrievable by electronic means.

CERTIFICATE TO COUNTY

THIS CERTIFICATE TO COUNTY (“Certificate”) is made as of the 22nd day of August 2018, by Texas PACE Authority (“Administrator”) to and for the benefit of Navarro County (“Local Government”).

RECITALS

A. Local Government has established a program to facilitate the financing of water and energy improvements for commercial and industrial properties (the “Program”) which was adopted by resolution on August 14, 2017 by the Local Government in accordance with the provisions of the Property Assessed Clean Energy Act, Texas Local Government Code, Chapter 399 (the “Act”).

B. Liebe Dallas LLC, a Missouri Limited Liability Company (“Property Owner”) has applied under application 2017-NAV-001 to participate in the Program through installation and/or modification of “qualified improvements” as defined in Section 399.002 of the Act, in a “qualified project” as defined in Section 399.002 of the Act (the “Project”) on real property (the “Property”) owned by Property Owner;

C. Property Owner has signed an Owner Contract and Notice of Contractual Assessment (the “Owner Contract”) in which it has agreed to an assessment in the amount of \$324,559.75 (the “Assessment”) and the imposition by the Local Government of an assessment lien on the Property to repay the Property Owner’s financing for the Project, as permitted by the Act.

D. Financing for the Project will be provided to Property Owner as described in the Owner Contract and in that certain PACE Lender Contract (the “PACE Lender Contract”) entered into between the Local Government and Greenworks Lending LLC (“Lender”) as required by Section 399.006 of the Act, providing for servicing of such financing through payment of such assessment, and other financing documents summarized in the PACE Lender Contract.

CERTIFICATION

Subject to the terms, conditions and limitations as set forth in the PACE Lender Contract, Administrator hereby certifies to Local Government that:

1. The Program has been duly and validly authorized by Local Government pursuant to a Resolution Establishing a Navarro County PACE Program and is in full force and effect pursuant to a contract with Texas PACE Authority approved by the Navarro County Commissioners Court on August 24, 2017;
2. The Project is a “qualified project” as defined in the Program and in Section 399.002 of the Act; and

3. The Assessment has been imposed as an assessment lien on the Property as set forth in the Owner Contract in accordance with the Program and the Act and is recorded in the real property records of Navarro County under recording reference #00006642.

Disclaimer. Administrator has not made and does not make by this Certificate any representations or warranties with respect to the Property, including any warranty of title. Furthermore, Administrator makes no representation or warranty in connection with, and assumes no responsibility with respect to, the solvency, financial condition or statements of the Property Owner, or with respect to the performance or observance by the Property Owner of its obligations under the Financing Documents. Administrator makes no representation or warranty in connection with, and assumes no responsibility with respect to, the performance, results or economic benefits of the Project.

This Certificate has been executed as of the day and year first above written.

Lease Agreement

Terms and Conditions

INTRODUCTION:

1. **NEGOTIATED CONTRACT.** The Products are subject solely to the terms in the Negotiated Contract identified on the face of this Agreement, and, for any option you have selected that is not addressed in the Negotiated Contract, the then-current standard Xerox terms for such option.

GOVERNMENT TERMS:

2. **REPRESENTATIONS & WARRANTIES.** This provision is applicable to governmental entities only. You represent and warrant, as of the date of this Agreement, that: (1) you are a State or a fully constituted political subdivision or agency of the State in which you are located and are authorized to enter into, and carry out, your obligations under this Agreement and any other documents required to be delivered in connection with this Agreement (collectively, the "Documents"); (2) the Documents have been duly authorized, executed and delivered by you in accordance with all applicable laws, rules, ordinances and regulations (including all applicable laws governing open meetings, public bidding and appropriations required in connection with this Agreement and the acquisition of the Products) and are valid, legal, binding agreements, enforceable in accordance with their terms; (3) the person(s) signing the Documents have the authority to do so, are acting with the full authorization of your governing body and hold the offices indicated below their signatures, each of which are genuine; (4) the Products are essential to the immediate performance of a governmental or proprietary function by you within the scope of your authority and will be used during the Term only by you and only to perform such function; and (5) your payment obligations under this Agreement constitute a current expense and not a debt under applicable state law and no provision of this Agreement constitutes a pledge of your tax or general revenues, and any provision that is so construed by a court of competent jurisdiction is void from the inception of this Agreement.

3. **FUNDING.** This provision is applicable to governmental entities only. You represent and warrant that all payments due and to become due during your current fiscal year are within the fiscal budget of such year and are included within an unrestricted and unencumbered appropriation currently available for the Products, and it is your intent to use the Products for the entire term of this Agreement and make all payments required under this Agreement. If your legislative body does not appropriate funds for the continuation of this Agreement for any fiscal year after the first fiscal year and has no funds to do so from other sources, this Agreement may be terminated. To effect this termination, you must, at least 30 days prior to the beginning of the fiscal year for which

your legislative body does not appropriate funds, notify Xerox in writing that your legislative body failed to appropriate funds. Your notice must be accompanied by payment of all sums then owed through the current fiscal year under this Agreement. You will return the Equipment, at your expense, to a location designated by Xerox and, when returned, the Equipment will be in good condition and free of all liens and encumbrances. You will then be released from any further payment obligations beyond those payments due for the current fiscal year (with Xerox retaining all sums paid to date).

PRICING PLAN/OFFERING SELECTED:

4. **FIXED PRICING.** If "Pricing Fixed for Term" is identified in Maintenance Plan Features, the maintenance component of the Minimum Payment and Print Charges will not increase during the initial Term of this Agreement.

GENERAL TERMS & CONDITIONS:

5. **REMOTE SERVICES.** Certain models of Equipment are supported and serviced using data that is automatically collected by Xerox or transmitted to or from Xerox by the Equipment connected to your network ("Remote Data") via electronic transmission to a secure off-site location ("Remote Data Access"). Remote Data Access also enables Xerox to transmit Releases of Software to you and to remotely diagnose and modify Equipment to repair and correct malfunctions. Examples of Remote Data include product registration, meter read, supply level, Equipment configuration and settings, software version, and problem/fault code data. Remote Data may be used by Xerox for billing, report generation, supplies replenishment, support services, recommending additional products and services, and product improvement/development purposes. Remote Data will be transmitted to and from you in a secure manner specified by Xerox. Remote Data Access will not allow Xerox to read, view or download the content of any of your documents or other information residing on or passing through the Equipment or your information management systems. You grant the right to Xerox, without charge, to conduct Remote Data Access for the purposes described above. Upon Xerox's request, you will provide contact information for Equipment such as name and address of your contact and IP and physical addresses/locations of Equipment. You will enable Remote Data Access via a method prescribed by Xerox, and you will provide reasonable assistance to allow Xerox to provide Remote Data Access. Unless Xerox deems Equipment incapable of Remote Data Access, you will ensure that Remote Data Access is maintained at all times Maintenance Services are being performed.
