AFFIDAVIT SUBMITTED BY  
Jane McCollum  
Chief Deputy Treasurer

NAVARRO COUNTY TREASURER

STATE OF TEXAS

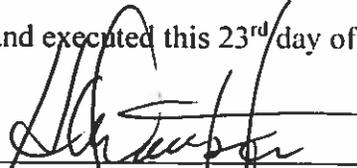

COUNTY OF NAVARRO

Before me, the undersigned authority, on this day personally appeared the following named persons, and after being duly sworn, deposes and says: Honorable H. M. Davenport, Jr., County Judge, Honorable Jason Grant, Commissioner Pct. 1, Honorable Eddie Perry, Commissioner Pct. 2, Honorable Eddie Moore, Commissioner Pct. 3, and Honorable James Olsen, Commissioner Pct. 4.

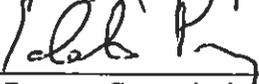

I, Jane McCollum, Navarro County Chief Deputy Treasurer, on this 23<sup>rd</sup> day of September, 2019 present to the Navarro County Commissioners Court the revised Monthly Financial Report for the month ending on August, 2019 for the court to review and approve. This report is in compliance with section 114.026 of the Local Government Code, so therefore we hereby execute this affidavit for publication.

With this signed affidavit, We the Commissioners Court, state that the requirements of Subsection (C) have been met with the examination of this report.

Signed and executed this 23<sup>rd</sup> day of September, 2019.

  
\_\_\_\_\_  
H. M. Davenport Jr. - County Judge

  
\_\_\_\_\_  
Jason Grant - Commissioner Pct 1

  
\_\_\_\_\_  
Eddie Perry - Commissioner Pct 2

  
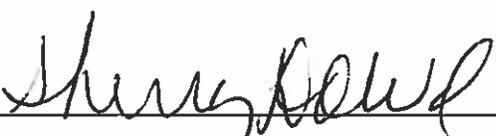

\_\_\_\_\_  
Eddie Moore - Commissioner Pct 3

  
\_\_\_\_\_  
James Olsen - Commissioner Pct 4

SWORN AND SUBSCRIBED TO BEFORE ME, this 23<sup>rd</sup> day of September, 2019 by H. M. Davenport, Jr., Jason Grant, Eddie Perry, Eddie Moore, and James Olsen, in their official capacities as the members of the Navarro County Commissioners Court.

ATTEST

  
\_\_\_\_\_  
Sherry Dowd - Navarro County Clerk

**TERMS AND CONDITIONS**

Terms are Net 30. A finance charge of 1.5% per month (18% APR) will be added to all past due invoices except where prohibited by law. All returned items will be assessed a restocking fee.

See numbers above for after hours service. The presentation of an agriculture exemption certificate, that renders any product tax exempt, implies its use is exclusively for agriculture production. Upon signing below I agree to the terms stated above. Thank you for choosing United Ag & Turf, we appreciate your business!

**Lease Agreement**

**Terms and Conditions**

**INTRODUCTION:**

**1. NEGOTIATED CONTRACT.** The Products are subject solely to the terms in the Negotiated Contract identified on the face of this Agreement, and, for any option you have selected that is not addressed in the Negotiated Contract, the then-current standard Xerox terms for such option.

**GOVERNMENT TERMS:**

**2. REPRESENTATIONS & WARRANTIES.** This provision is applicable to governmental entities only. You represent and warrant, as of the date of this Agreement, that: (1) you are a State or a fully constituted political subdivision or agency of the State in which you are located and are authorized to enter into, and carry out, your obligations under this Agreement and any other documents required to be delivered in connection with this Agreement (collectively, the "Documents"); (2) the Documents have been duly authorized, executed and delivered by you in accordance with all applicable laws, rules, ordinances and regulations (including all applicable laws governing open meetings, public bidding and appropriations required in connection with this Agreement and the acquisition of the Products) and are valid, legal, binding agreements, enforceable in accordance with their terms; (3) the person(s) signing the Documents have the authority to do so, are acting with the full authorization of your governing body and hold the offices indicated below their signatures, each of which are genuine; (4) the Products are essential to the immediate performance of a governmental or proprietary function by you within the scope of your authority and will be used during the Term only by you and only to perform such function; and (5) your payment obligations under this Agreement constitute a current expense and not a debt under applicable state law and no provision of this Agreement constitutes a pledge of your tax or general revenues, and any provision that is so construed by a court of competent jurisdiction is void from the inception of this Agreement.

**3. FUNDING.** This provision is applicable to governmental entities only. You represent and warrant that all payments due and to become due during your current fiscal year are within the fiscal budget of such year and are included within an unrestricted and unencumbered appropriation currently available for the Products, and it is your intent to use the Products for the entire term of this Agreement and make all payments required under this Agreement. If your legislative body does not appropriate funds for the continuation of this Agreement for any fiscal year after the first fiscal year and has no funds to do so from other sources, this Agreement may be terminated. To effect this termination, you must, at least 30 days prior to the beginning of the fiscal year for which

your legislative body does not appropriate funds, notify Xerox in writing that your legislative body failed to appropriate funds. Your notice must be accompanied by payment of all sums then owed through the current fiscal year under this Agreement. You will return the Equipment, at your expense, to a location designated by Xerox and, when returned, the Equipment will be to in good condition and free of all liens and encumbrances. You will then be released from any further payment obligations beyond those payments due for the current fiscal year (with Xerox retaining all sums paid to date).

**PRICING PLAN/OFFERING SELECTED:**

**4. FIXED PRICING.** If "Pricing Fixed for Term" is identified in Maintenance Plan Features, the maintenance component of the Minimum Payment and Print Charges will not increase during the initial Term of this Agreement.

**GENERAL TERMS & CONDITIONS:**

**5. REMOTE SERVICES.** Certain models of Equipment are supported and serviced using data that is automatically collected by Xerox or transmitted to or from Xerox by the Equipment connected to your network ("Remote Data") via electronic transmission to a secure off-site location ("Remote Data Access"). Remote Data Access also enables Xerox to transmit Releases of Software to you and to remotely diagnose and modify Equipment to repair and correct malfunctions. Examples of Remote Data include product registration, meter read, supply level, Equipment configuration and settings, software version, and problem/fault code data. Remote Data may be used by Xerox for billing, report generation, supplies replenishment, support services, recommending additional products and services, and product improvement/development purposes. Remote Data will be transmitted to and from you in a secure manner specified by Xerox. Remote Data Access will not allow Xerox to read, view or download the content of any of your documents or other information residing on or passing through the Equipment or your information management systems. You grant the right to Xerox, without charge, to conduct Remote Data Access for the purposes described above. Upon Xerox's request, you will provide contact information for Equipment such as name and address of your contact and IP and physical addresses/locations of Equipment. You will enable Remote Data Access via a method prescribed by Xerox, and you will provide reasonable assistance to allow Xerox to provide Remote Data Access. Unless Xerox deems Equipment incapable of Remote Data Access, you will ensure that Remote Data Access is maintained at all times Maintenance Services are being performed.

**INTERLOCAL AGREEMENT BETWEEN THE  
NORTH CENTRAL TEXAS EMERGENCY COMMUNICATIONS DISTRICT AND  
Navarro County  
FOR REGIONAL 9-1-1 SERVICE**

**Section 1: Parties and Purpose**

- 1.1. The North Central Texas Emergency Communications District (hereinafter "NCT9-1-1") is a regional emergency communications district and a political subdivision of the State of Texas organized under the Texas Health and Safety Code, Subchapter H, Chapter 772, as amended. NCT9-1-1 develops an annual budget to operate and maintain 9-1-1 service within the district.
- 1.2. Navarro County (hereinafter "Public Agency") is a local government that operates a Public Safety Answering Point ("PSAP") that participates in NCT9-1-1 as authorized by Texas Health and Safety Code Chapter 772.
- 1.3. This Interlocal Agreement is entered into between NCT9-1-1 and Public Agency pursuant to Texas Government Code Chapter 791 so that NCT9-1-1 can operate and maintain the systems utilized for the provision of 9-1-1 emergency communications services. For purposes of carrying out NCT9-1-1's duties and obligations under this agreement, the parties understand and agree that references to NCT9-1-1 includes its employees, officers, directors, volunteers, agents (including North Central Texas Council of Governments, hereinafter "NCTCOG"), and their representatives individually, officially, and collectively.

**Section 2: Rights and Duties of the Public Agency**

The Public Agency will:

**2.1 Financial/Insurance**

- 2.1.1 Return or reimburse NCT9-1-1 any 9-1-1 funds used in noncompliance with applicable laws and/or rules within 60 days after the discovery of noncompliance and notice to the Public Agency of such noncompliance, unless an alternative repayment plan is approved, in writing, by both parties.
- 2.1.2 Reimburse NCT9-1-1 for damage to 9-1-1 equipment caused by intentional misconduct, abuse, misuse, or negligence by Public Agency employees or other persons granted access to the PSAP, as well as acts of force majeure. This provision does not include ordinary wear and tear or day-to-day use of the equipment.
- 2.1.3 Maintain accurate fiscal records and supporting documentation of all 9-1-1 funds distributed to Public Agency and all 9-1-1 funds spent by such Public Agency for 9-1-1 service, with specific detail for 9-1-1 funds received.
- 2.1.4 Purchase and maintain adequate insurance policies on all 9-1-1 equipment in amounts enough to provide for the full replacement of such equipment in cases of loss due to anything other than daily use and normal wear

and tear. Public Agency shall name NCT9-1-1 and NCTCOG, including their representatives and agents, as an additional insured or equivalent under the Public Agency's general liability insurance policy or membership agreement in any governmental risk pool or other similar entity with a duty to provide a defense, and which is provided by policy or membership agreement so that NCT9-1-1 and/or NCTCOG may seek coverage upon demand by NCT9-1-1 and/or NCTCOG in the event of a covered claim. Public Agency shall provide proof of coverage at the request of NCT9-1-1.

## **2.2 Equipment and Inventory**

2.2.1 Report any lost, stolen, or nonfunctioning equipment in writing to NCT9-1-1 immediately upon discovery.

2.2.2 Notify NCT9-1-1 in writing 30 days in advance of disposition of equipment due to obsolescence, failure, or other planned replacement.

## **2.3 Security**

2.3.1 Protect all NCT9-1-1 provided equipment by implementing measures that secure the premises (including equipment room) of its PSAP against unauthorized entrance or use.

2.3.2 Operate within local standard operating procedures and take appropriate security measures as may be necessary to ensure that non-approved third-party software applications cannot be integrated into the PSAP's Call Handling Equipment (CHE) or workstations.

2.3.3 Refrain from attaching or integrating any hardware device (i.e. external storage devices) or software application without prior written approval of NCT9-1-1. Further, no unauthorized person shall configure, manipulate, or modify any hardware device or software application. Such authority can only be granted by NCT9-1-1.

2.3.4 Adhere to Health and Safety Code, Section 772.002(C), Confidentiality of Information.

2.3.5 Ensure each person who is authorized to receive, store, process, and/or transmit CHE information has a unique identification login and be logged into such equipment identifying their legitimacy for use.

## **2.4 Maintenance**

2.4.1 Ensure areas where NCT9-1-1 equipment is installed are clean and allows for unobstructed access by the NCT9-1-1 Technology Team.

2.4.2 Whenever possible, provide at least a two-week notice in writing to NCT9-1-1's Technology Team regarding any maintenance that could adversely affect 9-1-1 operations.

2.4.3 Provide at least a 48-hour notice in writing to NCT9-1-1's Technology Team prior to work commencing on any scheduled maintenance on commercial power backup generators.

2.4.4 Notify NCT9-1-1's Technology Team immediately of any power or generator outages greater than 15 minutes. If the outage affects the 9-1-1 system, trouble reporting procedures should be followed.

2.4.5 Notify NCT9-1-1's Technology Team of technical issues immediately upon discovery. The Public Agency will utilize one of the following methods:

- a. Via telephone by calling (888) 311-3911
- b. Via email to [Support@NCT911.org](mailto:Support@NCT911.org)
- c. Via the Trouble Ticket System (accessed by using the icon on the toolbar of the CHE)
- d. Via the website at <https://SSC.NCT911.org> (only works with issued credentials)

2.4.6 Test generators at least monthly and conduct a load test at least once a year, to ensure that all NCT9-1-1 equipment remains functional.

## 2.5 Training

2.5.1 Schedule telecommunicators to receive 9-1-1 equipment training within 120 days of his/her hire date.

2.5.2 Ensure that 9-1-1 PSAP Supervisors/Managers (or designee) attend the PSAP Supervisors' Meeting. NCT9-1-1 offers at least three PSAP Supervisors' meetings per year and a minimum attendance of two meetings per year is required for each PSAP.

2.5.3 Ensure PSAP Telecommunicators, Training Coordinators, Supervisors/Managers, and other essential personnel identified by the Supervisor/Manager attend mandatory training associated with the implementation of new technology. This training is generally scheduled for specific dates and times. Make up sessions can be scheduled if PSAP scheduling does not allow personnel to attend their designated time slot.

2.5.4 May request the use of training facilities by sending an email to [911OperationsTeam@NCT911.org](mailto:911OperationsTeam@NCT911.org) specifying the date of request, time of request and type of resources needed.

2.5.5 Ensure that all telecommunicators attend a 9-1-1 equipment and technology training refresher course every two years.

## 2.6 Facilities

2.6.1 Meet prescribed equipment room requirements (Attachment A). Any expenses associated with this requirement are the responsibility of the Public Agency.

2.6.2 Ensure areas with 9-1-1 equipment maintain a temperature between 65-85 degrees Fahrenheit.

2.6.3 Ensure 9-1-1 equipment room and communications area complies with the Americans with Disabilities Act of 1990.

2.6.4 Provide access to NCT9-1-1 staff and contracted vendors that meet CJIS requirements on a 24/7/365 basis without prior notice.

## 2.7 Supplies

2.7.1 Purchase supplies such as printer paper, printer ink, cleaning materials, and other expendable items necessary for the continuous operation and maintenance of its PSAP.

## 2.8 Monitoring/Reporting

2.8.1 Maintain financial, statistical, and ANI/ALI records adequate to document performance, costs, and receipts under this Agreement in accordance with applicable records retention schedules. Public Agency agrees to maintain these records at Public Agency's offices and provide or make available for inspection upon request by NCT9-1-1.

2.8.2 Cooperate fully with all reasonable monitoring requests from NCT9-1-1 for the purposes of assessing and evaluating Public Agency's performance under this Agreement.

## 2.9 Media Relations

2.9.1 Make every effort to communicate complete and accurate information in social media posts and/or interaction with the media, specifically as it relates to NCT9-1-1. Public Agency should first coordinate with NCT9-1-1 before making comments on social media and/or speaking to the media regarding 9-1-1 technology and service or issues with the 9-1-1 service providers.

2.9.2 Not disclose PSAP correspondence that NCT9-1-1 has clearly noted as proprietary or confidential, unless required to do so by law.

2.9.3 Refer media directly to NCT9-1-1 for discussions related to NCT9-1-1 technology and other NCT9-1-1 service or program specific questions.

## 2.10 Operations

2.10.1 Sign the contingent PSAP agreement supplied by NCT9-1-1 and provide at NCT9-1-1's request. Changes to contingent PSAPs must be approved by NCT9-1-1.

2.10.2 Delegate PSAP supervisory personnel or a designee and provide related contact information (to include after hour contact information) as a single point of contact for NCT9-1-1.

- 2.10.3 Provide a minimum of 180 days' prior notice of any facility moves, adds, or changes that affect the 9-1-1 system.
- 2.10.4 Test all 9-1-1 CHE for proper operation and user familiarity at least once per week, including, but not limited to: tests for voice calls, texts to 9-1-1 and TTYs.
- 2.10.5 NCT9-1-1 recommends power cycles at each 9-1-1 position at least once each week.
- 2.10.6 NCT9-1-1 recommends logging all TDD/TTY calls and test calls.
- 2.10.7 Keep at least one 10-digit emergency telephone number that is not part of an automated system to be used for 9-1-1 transfer calls and default routing. These numbers will be answered by a telecommunicator 24/7/365 and should have the ability to be call forwarded. Any change in the 10-digit emergency telephone number must be reported to NCT9-1-1 in writing. The number shall be provided to the public during 9-1-1 service disruptions (via notification system, website, social media and/or emergency management).
- 2.10.8 Notify NCT9-1-1 in writing at least 90 days prior to changing emergency services providers including medical, law enforcement, and fire.
- 2.10.9 Submit a signed Manual ALI Request form (Attachment B) to NCT9-1-1 annually and agree to use ALI lookup feature only in handling and processing of an emergency telephone call.
- 2.10.10 Public Agency utilizing Text to 9-1-1 services must complete a Text to 9-1-1 Service Agreement (Attachment C).
- 2.10.11 Have an emergency plan for 9-1-1 communications that includes, at a minimum,
  - a. Emergency generator information and how to operate said generator
  - b. Documented procedures for the transfer of administrative lines when the call center is evacuated.
- 2.10.12 Comply with NCT9-1-1 policy and procedures for PSAP moves and changes.
- 2.10.13 Report discrepancies to NCT9-1-1 utilizing the tools in the dispatch mapping solution within 72 hours.
- 2.10.14 Ensure that all telecommunicators log into the 9-1-1 software at the beginning of his/her shift and logs out at the end of his/her shift.
- 2.10.15 In accordance with Texas Health and Safety Code 772.619 ( c ), the 9-1-1 database information is not available for public inspection and cannot be released to the public. If a Public Information Act request specifies 9-1-1 database information, NCT 9-1-1 must be notified within three (3) business days of the Public Agency receiving the request.

1675

2.10.16 Be responsible for all furniture, administrative telephones, copier machines, and administrative desktop computers provided by NCT9-1-1 located within Public Agency's operating area.

2.10.17 If administrative telephone system is integrated with NCT9-1-1 equipment- Maintain a contingency plan identifying the back-up solution for the administrative telephone system. If a contingency plan is not provided to NCT9-1-1 within 30 days of contract execution, NCT9-1-1 reserves the right to remove the administrative phone lines from the 9-1-1 equipment. Administrative line integration is provided as a courtesy, not a requirement.

### **Section 3: Rights and Duties of NCT9-1-1**

#### **3.1 Financial**

3.1.1 Develop a budget and strategic plan to meet Public Agency needs for the establishment and operation of 9-1-1 services throughout the NCT9-1-1 region, according to standards established and approved by the NCT9-1-1 Board of Managers.

3.1.2 Provide 9-1-1 service to include 9-1-1 equipment, software, services, and other items described in the current NCT9-1-1 Strategic Plan, throughout the region as funded by emergency service fees.

3.1.3 Maintain accurate fiscal records and supporting documentation of all 9-1-1 activities including specific details of funds distributed to Public Agency.

#### **3.2 Equipment and Inventory**

3.2.1 Allow Public Agency the opportunity to participate in the planning, implementation, and operation of 9-1-1 equipment.

3.2.2 Conduct a physical inventory of critical hardware annually and reconcile inventory periodically.

#### **3.3 Training**

3.3.1 Ensure telecommunicators have access to the NCT9-1-1 Training webpage.

3.3.2 Offer CHE training to all new telecommunicators and refresher training every two years.

3.3.3 Offer licensing training through the Regional Telecommunicator Academy that meets or exceeds Texas Commission on Law Enforcement (TCOLE) rules and regulations.

3.3.4 Offer continuing education training for Intermediate, Advanced, and Master Telecommunicator Certifications as budget allows.

### **3.4 Maintenance**

3.4.1 Practice preventative maintenance on all NCT9-1-1 owned or leased CHE, software, and databases including, at a minimum, backing up data as necessary. NCT9-1-1 shall be responsible for any maintenance costs on NCT9-1-1 owned or leased equipment.

### **3.5 Operations**

3.5.1 Inspect contingent PSAP agreements periodically.

3.5.2 Implement upgrades of PSAP equipment and software, as authorized in the current annual budget, through the appropriate NCT9-1-1 processes for the purchase of new equipment and software.

### **3.6 Crisis Communications**

3.6.1 NCT9-1-1 will make every effort to communicate complete and accurate information to the Public Agency in a timely manner about 9-1-1 technology and services during 9-1-1 service interruptions.

3.6.2 NCT9-1-1 will post updates on its website and social media sites. NCT9-1-1 recommends the Public Agency use the wording provided through those avenues when providing updates to the public.

## **Section 4: Effective Date and Term of Agreement**

4.1 This Agreement shall take effect October 1, 2019, and shall continue until September 30, 2021, unless earlier terminated under 8.1 Early Termination of Agreement.

## **Section 5: Ownership, Transference, and Disposition of Equipment**

5.1 NCT9-1-1 may purchase, lease, or otherwise procure, on Public Agency's behalf, the 9-1-1 equipment, software, services, and other items as described in the NCT9-1-1 Strategic Plan.

5.2 NCT9-1-1 shall establish ownership of all 9-1-1 equipment procured with 9-1-1 funds as defined herein and located within the Public Agency's jurisdiction. NCT9-1-1 may maintain ownership, or it may transfer ownership to Public Agency. Before any such transfer of ownership, NCT9-1-1 will evaluate the adequacy of controls of Public Agency to ensure that sufficient controls and security exist by which to protect and safeguard the equipment procured with 9-1-1 funds for the purpose of delivery of 9-1-1 calls. It is understood that the equipment may or may not be procured by NCT9-1-1 on behalf of Public Agency, according to NCT9-1-1's Strategic Plan.

5.3 The basic 9-1-1 equipment categories are:

1677

- Call Handling Equipment (CHE) – telephone equipment located at the PSAP which may include telephones, integrated workstations, servers, ANI controllers, software, monitors, gateways, routers, and any other equipment necessary for 9-1-1 call delivery to the PSAP
- Telecommunications Device for the Deaf (TDD)/Teletypewriter (TTY)
- Uninterruptable Power Supply (UPS)

5.4 Transfer-of-ownership documents shall be prepared by NCT9-1-1 and signed by both parties upon transference of ownership of any 9-1-1 provided equipment. NCT9-1-1 shall maintain ownership of 9-1-1 CHE.

**Section 6: Relationship between the Parties, Assignment and Subcontracting**

6.1 It is understood and agreed that the relationship described in this Agreement between the Parties is contractual in nature and is not to be construed to create a partnership or joint venture or agency relationship between the parties.

6.2 This Agreement may not be assigned by either Party without the prior written consent of the other Party. An attempted assignment in violation of this agreement is void.

6.3 Public Agency may not subcontract its duties under this Agreement without the prior written consent of NCT9-1-1. Any subcontract shall be subject to all terms and conditions contained in this Agreement and Public Agency agrees to furnish a copy of this Agreement to its subcontractor(s).

**Section 7: Records and Monitoring**

7.1 NCT9-1-1 is entitled to inspect and copy, on a 24/7/365 basis, at Public Agency's office, the records maintained under this Agreement for as long as they are maintained.

7.2 NCT9-1-1 is entitled to visit Public Agency's offices, talk to its personnel, and audit its applicable 9-1-1 records during normal business hours to assist in evaluating its performance under the Agreement.

**Section 8: Early Termination of Agreement**

8.1 NCT9-1-1 reserves the right to terminate this Agreement in whole or in part upon a default by Public Agency. Notice of termination shall be provided to Public Agency in writing, shall set forth the reason(s) for termination, and provide for a minimum of thirty (30) days to cure the defect(s). Termination is effective only in the event Public Agency fails to cure the defect(s) within the period stated in the notice subject to any written extensions. If the Agreement is terminated, Public Agency shall cooperate with NCT9-1-1 to ensure an orderly transition of services. Further, all equipment shall be returned to NCT9-1-1 in working condition and NCT9-1-1 shall only be liable for payment for services rendered before the effective date of termination. Either Party may terminate this Agreement for convenience upon 180 days written notice to the other Party. Certain reporting requirements in the Agreement shall survive termination.

1678

**Section 9: Notice to Parties**

9.1 Notice under this contract must be in writing and received by the party or his/her representative or replacement, to which the notice is addressed. Notice is considered received by a party when it is:

- Delivered to the party personally;
- On the date shown on the return receipt if mailed by registered or certified mail, return receipt requested, to the party's address as specified in paragraph 9.2 and signed on behalf of the party; or
- Three business days after its deposit in the United States Mail, with first-class postage affixed, addressed to the party's address specified in paragraph 9.2.

9.2 Notices shall be sent to the following address for each party:

If to NCT9-1-1: PO Box 5888  
 Arlington, Texas 76005  
 Attn: Mike Eastland

If to Public Agency: Navarro County  
 300 W. 3rd Ave Ste 102  
 Corsicana, TX 75110

**Section 10: General Provisions**

10.1 **Governing Law.** This Agreement will be governed by and construed in accordance with the laws of the State of Texas, United States of America. The mandatory and exclusive venue for the adjudication or resolution of any dispute arising out of this Agreement shall be in Tarrant County, Texas.

10.2 **Liability.** The Parties agree and acknowledge that each Party is not an agent of the other Party and that each Party is responsible for its acts, forbearances, negligence and deeds, and for those of its agents, contractors, officers and employees in conjunction with each Party's performance under this Agreement.

10.4 **Limitation of Liability.** In no event shall either party be liable for special, consequential, incidental, indirect or punitive loss, damages or expenses arising out of or relating to this Agreement, whether arising from a breach of contract or warranty, or arising in tort, strict liability, by statute or otherwise, even if it has been advised of their possible existence or if such loss, damages, or expenses were reasonably foreseeable.

10.5 **Procurement.** Both parties agree to comply with all applicable federal, State and local laws, rules and regulations for purchases under this Agreement. Failure to do so may result in ineligibility and denial of reimbursement by NCT9-1-1.

10.6 **Force Majeure.** It is expressly understood and agreed by the Parties to this Agreement that if either party hereto is prevented from or delayed in the performance of any of its obligations hereunder by reason of force majeure, defined as acts of God, war, riots, storms, fires or any other cause whatsoever beyond the reasonable control of the party, the party so prevented or delayed shall be excused from the performance of any such obligation to the extent and during the period

1679

of such prevention or delay. The period of time applicable to such requirement shall be extended for a period of time equal to the period of time such Party was delayed. Each Party must inform the other in writing within reasonable time of the existence of such force majeure.

**10.7 Entire Agreement.** This Agreement and any attachments/addendums, as provided herein, constitute the entire agreement of the parties and supersedes all other agreements, discussions, representations or understandings between the parties with respect to the subject matter hereof.

**10.8 Availability of Funding.** Public Agency acknowledges that NCT9-1-1's sole source of funding for this Agreement is the 9-1-1 fees collected by service providers and remitted to NCT9-1-1. If fees sufficient to pay Public Agency under this Agreement are not paid to NCT9-1-1, the suspension of services will be effective 10 calendar days after Public Agency's receipt of notice. Upon suspension of payment, Public Agency's obligations under this Agreement are also suspended until NCT9-1-1 resumes receipt of funding.

**10.9 Amendments.** This Agreement may be amended only by a written amendment executed by both Parties, except that any alterations, additions, or deletions to the terms of this Agreement, which are required by changes in Federal and State law or regulations or required by the funding source, are automatically incorporated into this Agreement without written amendment hereto and shall become effective on the date designated by such law or regulation. In the event of such occurrence, written notice of alterations, additions or deletions to the terms of this Agreement will be provided to Public Agency.

**10.10 Nondiscrimination and Equal Opportunity.** Public Agency shall not exclude anyone from participating under this Agreement, deny anyone benefits under this Agreement, or otherwise unlawfully discriminate against anyone in carrying out this Agreement because of race, color, religion, sex, age, disability, handicap, or national origin.

**10.11 Immunity.** It is expressly understood and agreed that, in the execution of this Agreement, no party waives, nor shall be deemed hereby to waive, any immunity or defense that would otherwise be available to it against claims arising in the exercise of governmental powers and functions, including but not limited to sovereign and governmental immunity.

**10.12 Attorney Fees.** If any action is necessary to enforce the terms of this Agreement, the prevailing party shall be entitled to reasonable attorney fees and costs in addition to any other relief to which that party may be entitled.

**10.13 Dispute Resolution.** The parties to this Agreement agree to the extent possible and not in contravention of any applicable State or Federal law or procedure established for dispute resolution, to attempt to resolve any dispute between them regarding this Agreement informally through voluntary mediation or any other local dispute mediation process before resorting to litigation.

The parties agree to continue performing their duties under this contract, which are unaffected by the dispute during the negotiation and mediation process.

Date of governing body approval: \_\_\_\_\_

**Attachments:**

- Attachment A: Equipment Room and Electrical Requirement**
- Attachment B: Manual ALI Request Form**
- Attachment C: Text to 9-1-1 Service Agreement**

## Attachment A Equipment Room and Electrical Requirements

### Equipment Room:

- There should be enough space to remove equipment from the equipment room in the event of an upgrade or replacement of faulty equipment i.e. removal of the Uninterruptible Power Supply (UPS) battery system, or large rack mounted servers.
- Do not attach any equipment that is not provided by NCT9-1-1 into rack being utilized for 9-1-1 call delivery. Equipment racks should remain segregated to allow NCT9-1-1 the ability to add/remove/change any of their equipment when necessary.
- Do not stack anything on or around NCT9-1-1 equipment rack or UPS, UPS bypass switch, or electrical distribution panel.
- There should be elevator access to the equipment room, or 911 demarcation closets located upstairs.

### Fire Protection:

- Dry pipe high temperature type systems are recommended if sprinkler heads are to be in the 9-1-1 equipment room.
- If possible, non-combustible material should be used for the room construction.

### Security Precautions:

- Public Agency may need to extend and improve existing building security to provide adequate protection for the 9-1-1 equipment.
- Electric locks or push-button access code or card readers are not recommended unless you provide a battery backup system.

### Temperature and Humidity Control:

- A stable ambient operating temperature of 72 degrees Fahrenheit is recommended. Maximum tolerances are from 65 to 85 degrees non-condensing.
- Air conditioning units must be able to handle the heat produced by the 9-1-1 equipment.
- For estimates on BTU output of the equipment, please consult with onsite installation personnel.

### Static Electricity:

Static can damage circuitry permanently, interrupt system operation and cause lost data. To prevent static:

- The equipment room humidity must be constant.
- The room floor should not be carpeted, unless carpet is static free and grounded.
- The room floor should be sealed, (preferably tiled), but not waxed.

### Lighting:

- Lighting must not be powered from the switch room service panel.
- Lighting should provide 50-75-foot candles measured 30" above the equipment room floor.

**Grounding:**

- A single point, isolated ground is required unless superseded by local code. The source should be XO of the transformer that feeds the phase conductors to the equipment room electrical service panel.
- Terminations must be accessible for inspection during the life of the installation.
- Conductors must be continuous with no splices or junctions.
- Conductors must be no load, non-current carrying.

**Electrical:**

- Voltage required is 208/120 V three phase; four wire "wye" service or 240/120 single phase 4 wire "delta" service.
- A dedicated transformer is preferred; however, a shared transformer or distribution is acceptable.
- IGL6-15, 20 or 30 receptacles are required, and the ground must terminate on the IG buss.
- All circuit breakers must be clearly labeled.
- Terminal devices located in the equipment room will require local power. These outlets must be wired and fused independently from all other receptacles. They must also be IG type receptacles.
- NCT9-1-1 equipment should be plugged into independent circuits, and segregated from other non-911 equipment, such as floor heaters, radio equipment, etc. This will ensure that a failure of non-911 equipment won't adversely affect the performance of 9-1-1 call handling equipment.

**Manual ALI Request Form**  
*For reference only. To be sent as a separate agreement to Chief/Sheriff and  
 Communications Manager/Supervisor.*

Updated: June 6, 2019

PSAP Name: \_\_\_\_\_

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

This letter is to request that the "Manual ALI Query" feature be enabled at \_\_\_\_\_  
(PSAP NAME)

The 9-1-1 call handling equipment (CHE) provided by NCT9-1-1 has been configured to allow manual queries and is compatible with the manual ALI query protocol of NCT9-1-1. MANUAL ALI QUERY SERVICES WILL ONLY BE USED IN THE HANDLING OF EMERGENCY CALLS. All manual ALI queries must also be documented using the reason feature.

This PSAP and the Telecommunicators with access to 9-1-1 fully understand and agree to comply with the terms and conditions set forth under which this feature may be provided.

The NCT9-1-1 operations staff has access to a statistical report of Manual ALI Query per PSAP. Misuse of the proprietary ALI information may be cause for the termination of this feature for the PSAP.

North Central Texas Emergency Communications District  
Regional 9-1-1 Program  
Text to 9-1-1 Service Agreement

Updated: June 6, 2019

PSAP Name: \_\_\_\_\_

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

The 9-1-1 call handling equipment (CHE) provided by NCT9-1-1 has been configured to allow Text to 9-1-1 service. The PSAP is required to conduct at least ten (10) test requests for help via text per month.

NCT9-1-1 shall provide training, best practice and implementation of this service. NCT9-1-1 shall also assist testing and public education when requested.

The PSAP has been advised that this is an interim solution with limitations and feature will evolve as the service does.

This PSAP and the Telecommunicators with access to 9-1-1 fully understand and agree to comply with the terms and conditions set forth under which this service provided.

**INTERLOCAL AGREEMENT BETWEEN THE  
NORTH CENTRAL TEXAS EMERGENCY COMMUNICATIONS DISTRICT  
AND  
Navarro County  
FOR  
LOCAL ADDRESSING AND GIS SERVICES**

**Section 1: Parties and Purpose**

**1.1** The North Central Texas Emergency Communications District (hereinafter "NCT9-1-1") is a regional emergency communications district and a political subdivision of the State of Texas organized under the Texas Health and Safety Code, Subchapter H, Chapter 772, as amended. NCT9-1-1 develops an annual budget to operate and maintain 9-1-1 service within the district.

**1.2** Navarro County (hereinafter "9-1-1 Addressing Authority") is a local government entity in charge of 9-1-1 addressing and related Geographic Information Systems (GIS) services in their respective jurisdiction, and that participates in NCT9-1-1 as authorized by Texas Health and Safety Code Chapter 772.

**1.3** This Interlocal Agreement is entered into between NCT9-1-1 and 9-1-1 Addressing Authority pursuant to Texas Government Code Chapter 791 so that NCT9-1-1 can operate and maintain the systems utilized for the provision of 9-1-1 emergency communications services. For purposes of carrying out NCT9-1-1's duties and obligations under this agreement, the parties understand and agree that references to NCT9-1-1 includes its employees, officers, directors, volunteers, agents (including North Central Texas Council of Governments – hereinafter "NCTCOG"), and their representatives individually, officially, and collectively.

**Section 2: Rights and Duties of the 9-1-1 Addressing Authority**

The 9-1-1 Addressing Authority will:

**2.1 Security.** Adhere to Health and Safety Code, Section 772.002(C), Confidentiality of Information.

**2.2 Geographic Information Systems (GIS) / Data**

**2.2.1** If the 9-1-1 Addressing Authority cannot meet the requirements outlined in this agreement, the planned funds shall be used by NCT9-1-1 to procure/provide those services for the 9-1-1 Addressing Authority.

**2.2.2** The 9-1-1 Addressing Authority shall coordinate 9-1-1 GIS activities within the county's jurisdictional boundaries including all municipalities or other addressing entities (where applicable) to develop and enhance the 9-1-1 GIS coverage. The 9-1-1 Addressing Authority is responsible for coordinating GIS operations whenever possible, sharing all county policies and procedures with the municipalities in their county, as well as incorporating GIS data into the county datasets, when possible.

**2.2.3** The 9-1-1 Addressing Authority shall provide and maintain GIS maintenance functions within its jurisdictional boundary in return for funding through NCT9-1-1 and within the guidelines of the GIS Data Maintenance Model (Attachment B). At a minimum, the 9-1-1 Addressing Authority agrees to:

- a. Select a 9-1-1 Addressing Coordinator to serve as a single point of contact for NCT9-1-1.
- b. Funds shall only be used for GIS and Addressing services specific to 9-1-1.
- c. Assign street addresses and ranges, name streets, and resolve addressing conflicts and problems. The 9-1-1 Addressing Authority shall make every effort to not allow for duplication of community names anywhere in the county, and not allow for duplicate street names wherever possible.
- d. The Addressing Authority shall comply with the Quality Control requirements set by NCT9-1-1 and industry standards (Attachment A).
- e. Provide a physical address to any citizen requesting it if doing so complies with local policies/procedures/ordinances.
- f. Establish efficient procedures for updating and maintaining all addressing data through review and revisions due to changes in the 9-1-1 Addressing Authority ordinances and/or subdivision regulations.
- g. Maintain addressing/database equipment (where applicable), and data.
- h. Adhere to Health and Safety Codes, Section 772.002 (C), Number and location identification in maintaining 9-1-1 and addressing databases. In accordance with Texas Health and Safety Code 772.619 (c), the 9-1-1 database information is not available for public inspection. The 9-1-1 database information cannot be released and cannot be released to the public. If a Public Information Act request specifies 9-1-1 database information, NCT 9-1-1 must be notified within three (3) business days of the 9-1-1 Addressing Authority receiving the request.
- i. Notify NCT9-1-1 in writing at least 30 days prior to a 9-1-1 Addressing office move.
- j. Notify NCT9-1-1 upon receipt of notice for changes concerning emergency service provider information including medical, law enforcement, and fire.
- k. Per industry standards as outlined in Attachment A, respond to any GIS/database errors within 72 hours of receipt, unless there is a valid exception. Valid exceptions include existing errors or errors that cannot be corrected due to circumstances not within the control of the 9-1-1 Addressing Authority.
- l. Updates and changes to GIS data to be provisioned to NCT9-1-1 within 48 hours.
- m. Notify NCT9-1-1 upon receipt of notice from cities concerning annexation-related 9-1-1 boundary changes. Process the associated GIS changes as soon as possible.

## 2.3 Spatial Data Layers

2.3.1 The 9-1-1 Addressing Authority must develop, compile and maintain current, a comprehensive data set for the following layers at a minimum and per NCT9-1-1 GIS Data Quality Control Standards and Guidelines (Attachment A):

- |  |   |
|--|---|
| a. Site Structure Address Points   | applicable                              |
| b. Road Centerlines  | f. MSAG Community Boundaries            |
| c. City Boundaries   | g. Exchange Boundaries Provided by COG  |
| d. County Boundaries   | h. Fire Hydrants (where possible)       |
| e. Emergency Service Boundaries (ESBs)<br>such as Fire, Law, EMS, and PSAP where | i. Mile Markers (where applicable)      |
|  | j. Zip Code Boundaries (where possible) |

2.3.2 The 9-1-1 Addressing Authority shall provide to the NCT9-1-1 GIS Department with 100% complete attribution for all data features containing the following information:

- a. Road centerlines digitized over spatially accurate satellite or aerial imagery, with a goal of spatial accuracy of centerlines to within 10 feet, and drawn in the correct direction for the corresponding address range; the following fields at a minimum need to be attributed:
- |  |                                      |
|--|--------------------------------------|
| i. Data Source   | ix. Road Full Name                   |
| ii. User ID  | x. Road Class                        |
| iii. Date Modified   | xi. ESN Left and Right               |
| iv. Range information (Left From, Left To, Right From, Right To, High and Low) | xii. County Left and Right           |
| v. Pre-directional   | xiii. State Left and Right           |
| vi. Street Name  | xiv. MSAG Community Left and Right   |
| vii. Road Type   | xv. Exchange Boundary Left and Right |
| viii. Post Directional (Suffix)  | xvi. Tandem Left and Right           |
- b. Site/Structure Address Points (SSAP), placed above the structure, with a goal of spatial accuracy to within 25 feet of the structure. The following fields at a minimum need to be attributed:
- |   |                                       |
|---|---------------------------------------|
| i. Data Source                              | ix. Road Full Name                    |
| ii. User ID                                 | x. Structured Full Name               |
| iii. Date Modified                          | xi. Structured Class (if applicable)  |
| iv. Structure Number                        | xii. Structured Type (if applicable)  |
| v. Structure address Prefix (if applicable) | xiii. ESN Number                      |
| vi. Structure Road Name                     | xiv. MSAG Community Name              |
| vii. Structure Type                         | xv. Community Name                    |
| viii. House Number Suffix (if applicable)   | xvi. Exchange Boundary Left and Right |
|   | xvii. Tandem                          |
- c. City Boundary polygons spatially accurate to within 50 feet of their true location, determined by the best data source or combination thereof (annexations, metes and bounds, parcels, aerial imagery, etc.). The following fields at minimum need to be attributed:
- |                |             |
|----------------|-------------|
| i. Data Source | ii. User ID |
|----------------|-------------|

- iii. Date Modified
- iv. City Name
- v. County Name
- d. Emergency Service Boundary (ESB) polygons
  - i. Based on the NG9-1-1 Requirements and industry standards, accuracy is paramount when editing the spatial properties of the ESB boundaries and attributing the fields.
  - ii. NCT9-1-1 will need to work with each county on a case-by-case basis to resolve any spatial and attribute changes to the ESB boundaries and tables.
- e. Emergency Service Zone (ESZ) polygons spatially accurate to within 50 feet of their true location whenever possible; the following fields at a minimum will be attributed:
  - i. Data Source
  - ii. User ID
  - iii. Date Modified
  - iv. Emergency Service Number (ESN)
  - v. ESN City Name
  - vi. ESN County Name
  - vii. Law Responders
  - viii. Fire Responders
  - ix. Medical Responders
  - x. PSAP Name
  - xi. PSAP Boundary (where applicable)
- f. 9-1-1 MSAG Community polygons spatially accurate to within 50 feet of their true location whenever possible; the following fields at a minimum will be attributed:
  - i. Data Source
  - ii. User ID
  - iii. Date Modified
  - iv. 9-1-1 Community Name
  - v. County Name
- g. Exchange Boundary polygons spatially accurate to within 50 feet of their true location whenever possible; the following fields at a minimum will be attributed:
  - i. Data Source
  - ii. User ID
  - iii. Date Modified
  - iv. Exchange Name
  - v. Exchange Tandem Name

**2.4 Operations/Documentation**

- 2.4.1 The 9-1-1 Addressing Authority shall be responsible for documenting and updating applicable county processes for 9-1-1 addressing and GIS.
- 2.4.2 The 9-1-1 Addressing Authority shall make their processes available at NCT9-1-1's request.

**2.5 Training**

- 2.5.1 The 9-1-1 Addressing Authority is required to send new 9-1-1 Addressing Coordinators to a one-day orientation at NCT9-1-1 offices.

- 2.5.2 The 9-1-1 Addressing Authority is required to provide necessary software training, as well as training on local addressing policies, to 9-1-1 Addressing Coordinators.

## 2.6 Media Relations

- 2.6.1 Make every effort to communicate complete and accurate information in social media posts and/or interaction with the media, specifically as it relates to NCT9-1-1. Addressing Authority should first coordinate with NCT9-1-1 before making comments on social media and/or speaking to the media regarding 9-1-1 technology and service or issues with the 9-1-1 service providers.
- 2.6.2 Situations change quickly in the middle of service issues. Exercise caution in sharing information with the public and do not share PSAP correspondence that NCT9-1-1 has noted as proprietary.
- 2.6.3 Refer media directly to NCT9-1-1 for discussions related to NCT9-1-1 technology and other NCT9-1-1 service or program specific questions.

## Section 3: Rights and Duties of NCT9-1-1

NCT9-1-1 will:

### 3.1 Financial

- 3.1.1. Develop a budget and strategic plan to meet the 9-1-1 Addressing Authority needs for the establishment and operation of 9-1-1 service throughout the region served, according to standards established and approved by the NCT9-1-1 Board of Managers.
- 3.1.2. Provide 9-1-1 service throughout the region as funded by emergency service fees.
- 3.1.3. Procure/provide services to the 9-1-1 Addressing Authority using planned funds in the event the 9-1-1 Addressing Authority is unable to meet the requirements outlined in the agreement.

### 3.2 Training

- 3.2.1. NCT9-1-1 will offer a one-day orientation to all new 9-1-1 Addressing Coordinators.
- 3.2.2. NCT9-1-1 will provide access to additional GIS software training as budget allows.

### 3.3 GIS/Data

- 3.3.1. NCT9-1-1 will provide an informational portal with addressing resources.

3.3.2. NCT9-1-1 will notify the 9-1-1 Addressing Authority within 24 hours of PSAP boundary changes.

**Section 4: Effective Date and Term of Agreement**

4.1 This Agreement shall take effect October 1, 2019, and shall continue until September 30, 2021, unless earlier terminated under 8.1 Early Termination of Agreement.

**Section 5: GIS Data Maintenance Model**

See Attachment B (GIS Data Maintenance Model) for further explanation of the model.

**5.1. Responsibilities**

5.1.1. The 9-1-1 Addressing Authority is responsible for providing accurate locational data used by NCT9-1-1 to route emergency service request calls to the proper Public Safety Answering Point (PSAP) based on the location of the caller.

5.1.2. NCT9-1-1 has a budgeted line item to disburse to Addressing Authorities who meet basic requirements of the agreement and maintain a level of accuracy of the data provided to NCT9-1-1.

**5.2. 9-1-1 GIS Data Maintenance Model**

5.2.1. Disbursements are made based on the 9-1-1 GIS Maintenance Model which calculates disbursement based on critical errors during each NCT9-1-1 fiscal quarter.

5.2.2. Performance incentive amounts are calculated using the following method:

- Incentive Tier 1 = (# of critical errors / # SSAPs) ≤ .2% or .002 – Receive ¼ of full annual incentive amount
- Incentive Tier 2 = (# of critical errors / # SSAPs) ≤ .4% or .004 – Receive ¼ of 90% of annual incentive amount
- Incentive Tier 3 = (# of critical errors / # SSAPs) ≤ .6% or .006 – Receive ¼ of 80% of annual incentive amount
- Incentive Tier 4 = (# of critical errors / # SSAPs) ≤ .8% or .008 – Receive ¼ of 70% of annual incentive amount
- Incentive Tier 5 = (# of critical errors / # SSAPs) > .8% or .008 – Receive no incentive amount

5.3. **Critical Errors.** Critical Errors are defined as errors that cause, or have a potential to cause, a critical fault in the routing of a 9-1-1 emergency service request call to the correct PSAP. Examples of critical errors include:

- SSAP Duplicates
- SSAP No Value
- RCL Range Overlaps
- RCL No Value
- Boundary Topology Gap (Fire, Law, EMS, ESZ, County, Municipal, MSAG Community, PSAP<sup>1</sup>)

<sup>1</sup> Where applicable, NCT9-1-1 ensures spatial integrity of PSAP boundaries

- Boundary Topology Overlap (Fire, Law, EMS, ESZ, County, Municipal, MSAG Community, PSAP<sup>1</sup>)

5.4. **Remedy Period.** A remedy period or "grace period" is available to 9-1-1 Addressing Authorities to accommodate unforeseen circumstances that can lead to temporarily inflated critical error rates. NCT9-1-1 will grant a remedy period of one quarter immediately following the quarter where the 9-1-1 Addressing Authority had a critical error rate sufficient to drop to a lower incentive tier. In such an instance, the tier status will drop but the performance incentive will remain congruent with the 9-1-1 Addressing Authority's prior tier amount. If the 9-1-1 Addressing Authority's error rate continues to remain in the lower tier or drops further, a reduction in the tier incentive amount will immediately take effect for that quarter.

#### **Section 6: Relationship between the Parties, Assignment, and Subcontracting**

6.1 It is understood and agreed that the relationship described in this Agreement between the Parties is contractual in nature and is not to be construed to create a partnership or joint venture or agency relationship between the parties.

6.2 This Agreement may not be assigned by either Party without the prior written consent of the other Party. An attempted assignment in violation of this agreement is void.

6.3 9-1-1 Addressing Authority may not subcontract its duties under this Agreement without the prior written consent of NCT9-1-1. Any subcontract shall be subject to all terms and conditions contained in this Agreement and the 9-1-1 Addressing Authority agrees to furnish a copy of this Agreement to its subcontractor(s).

#### **Section 7: Records and Monitoring**

7.1 NCT9-1-1 is entitled to visit the 9-1-1 Addressing Authority's offices, talk to its personnel, and audit its applicable 9-1-1 records during normal business hours to assist in evaluating its performance under the Agreement.

#### **Section 8: Early Termination of Agreement**

8.1 NCT9-1-1 reserves the right to terminate this Agreement in whole or in part upon a default by 9-1-1 Addressing Authority. Notice of termination shall be provided to the 9-1-1 Addressing Authority in writing, shall set forth the reason(s) for termination, and provide for a minimum of thirty (30) days to cure the defect(s). Termination is effective only in the event the 9-1-1 Addressing Authority fails to cure the defect(s) within the period stated in the notice subject to any written extensions. If the Agreement is terminated, the 9-1-1 Addressing Authority shall cooperate with NCT9-1-1 to ensure an orderly transition of services. Further, all equipment shall be returned to NCT9-1-1 in working condition and NCT9-1-1 shall only be liable for payment for services rendered before the effective date of termination. Either Party may terminate this Agreement for convenience upon 180 days written notice to the other Party. Certain reporting requirements in the Agreement shall survive termination.

**Section 9: Notice to Parties**

9.1 Notice under this contract must be in writing and received by the party or his/her representative or replacement, to which the notice is addressed. Notice is considered received by a party when it is:

- Delivered to the party personally;
- On the date shown on the return receipt if mailed by registered or certified mail, return receipt requested, to the party's address as specified in paragraph 10.2 and signed on behalf of the party; or
- Three business days after its deposit in the United States Mail, with first-class postage affixed, addressed to the party's address specified in paragraph 10.2.

9.2 Notices shall be sent to the following address for each party:

If to NCT9-1-1:	PO Box 5888 Arlington, Texas 76005 Attn: Mike Eastland
If to 9-1-1 Addressing Authority:	300 W 3rd Ave Ste 102 Corsicana TX 75110 Attn: NAVARRO County Judge

**Section 10: General Provisions**

- 10.1. **Governing Law.** This Agreement will be governed by and construed in accordance with the laws of the State of Texas, United States of America. The mandatory and exclusive venue for the adjudication or resolution of any dispute arising out of this Agreement shall be in Tarrant County, Texas.
- 10.2. **Liability.** The Parties agree and acknowledge that each Party is not an agent of the other Party and that each Party is responsible for its acts, forbearances, negligence and deeds, and for those of its agents, contractors, officers and employees in conjunction with each Party's performance under this Agreement.
- 10.3. **Limitation of Liability.** In no event shall either party be liable for special, consequential, incidental, indirect or punitive loss, damages or expenses arising out of or relating to this Agreement, whether arising from a breach of contract or warranty, or arising in tort, strict liability, by statute or otherwise, even if it has been advised of their possible existence or if such loss, damages, or expenses were reasonably foreseeable.
- 10.4. **Force Majeure.** It is expressly understood and agreed by the Parties to this Agreement that if either party hereto is prevented from or delayed in the performance of any of its obligations hereunder by reason of force majeure, defined as acts of God, war, riots, storms, fires or any other cause whatsoever beyond the reasonable control of the party, the party so prevented or delayed shall be excused from the performance of any such obligation to the extent and during the period of such prevention or delay. The period of time applicable to such requirement shall

be extended for a period of time equal to the period of time such Party was delayed. Each Party must inform the other in writing within reasonable time of the existence of such force majeure.

- 10.5. Entire Agreement.** This Agreement and any attachments/addendums, as provided herein, constitute the entire agreement of the parties and supersedes all other agreements, discussions, representations or understandings between the parties with respect to the subject matter hereof.
- 10.6. Availability of Funding.** The 9-1-1 Addressing Authority acknowledges that NCT9-1-1's sole source of funding for this Agreement is the 9-1-1 fees collected by service providers and remitted to NCT9-1-1. If fees sufficient to pay the 9-1-1 Addressing Authority under this Agreement are not paid to NCT9-1-1, the suspension of services will be effective 10 calendar days after the 9-1-1 Addressing Authority's receipt of notice. Upon suspension of payment, the 9-1-1 Addressing Authority's obligations under this Agreement are also suspended until NCT9-1-1 resumes receipt of funding.
- 10.7. Amendments.** This Agreement may be amended only by a written amendment executed by both Parties, except that any alterations, additions, or deletions to the terms of this Agreement, which are required by changes in Federal and State law or regulations or required by the funding source, are automatically incorporated into this Agreement without written amendment hereto and shall become effective on the date designated by such law or regulation. In the event of such occurrence, written notice of alterations, additions or deletions to the terms of this Agreement will be provided to 9-1-1 Addressing Authority.
- 10.8. Nondiscrimination and Equal Opportunity.** The 9-1-1 Addressing Authority shall not exclude anyone from participating under this Agreement, deny anyone benefits under this Agreement, or otherwise unlawfully discriminate against anyone in carrying out this Agreement because of race, color, religion, sex, age, disability, handicap, or national origin.
- 10.9. Immunity.** It is expressly understood and agreed that, in the execution of this Agreement, no party waives, nor shall be deemed hereby to waive, any immunity or defense that would otherwise be available to it against claims arising in the exercise of governmental powers and functions, including but not limited to sovereign and governmental immunity.
- 10.10. Attorney Fees.** If any action is necessary to enforce the terms of this Agreement, the prevailing party shall be entitled to reasonable attorney fees and costs in addition to any other relief to which that party may be entitled.
- 10.11. Dispute Resolution.** The parties to this Agreement agree to the extent possible and not in contravention of any applicable State or Federal law or procedure established for dispute resolution, to attempt to resolve any dispute between them regarding this Agreement informally through voluntary mediation or any other local dispute mediation process before resorting to litigation.

The parties agree to continue performing their duties under this contract, which are unaffected by the dispute during the negotiation and mediation process.

### NCT9-1-1 GIS Data Quality Control Standards and Guidelines

#### Overview

##### Purpose

NCT9-1-1's GIS Team is the Quality Control hub for regional GIS data specific to 9-1-1. NCT9-1-1 serves as the direct technical and GIS data-related contact to the County 9-1-1 Addressing Authorities and promotes 9-1-1 industry standards to ensure GIS data is ready for mission-critical 9-1-1 systems. To ensure GIS data accuracy, NCT9-1-1 employs specialized industry-specific software to perform Quality Control on the GIS Data.

##### Requirements

County Addressing Coordinators will need access to GIS Desktop software supplied by NCT9-1-1 or the county, an internet connection to receive the Quality Control data and reports from NCT9-1-1, and relevant training by NCT9-1-1 personnel. Furthermore, County Addressing Coordinators will need a thorough understanding of the Quality Control standards built into the software supplied by NCT9-1-1, and 9-1-1/GIS industry-specific standards to ensure data integrity for 9-1-1 applications.

#### Resources

##### GIS Quality Control Software

NCT9-1-1 will supply the relevant documentation and instruction for adhering to the Quality Control Software including the exception code data sheet. The information will be made available via a web portal or other electronic standard.

##### Industry Specific Standards

The NCT9-1-1 GIS Team follows the industry-set standards developed by the National Emergency Number Association (NENA). NCT9-1-1 recommends the following standards and stresses the importance of these standards to ensure data accuracy and efficient 9-1-1 service.

##### Data Structure Documents

1. NENA Standard Data Formats for E9 1 1 Data Exchange & GIS Mapping
2. NENA Standard for NG9-1-1 GIS Data Model
3. NG9-1-1 Additional Data Standard
4. NENA Next Generation United States Civic Location Data Exchange Format (CLDXF)

Data Management Documents

1. GIS Data Collection and Maintenance Standards
2. Standard for Reporting and Resolving ANI/ALI Discrepancies and No Records Found for Wireline, Wireless and VoIP Technologies
3. NENA Next Generation 9-1-1 Data Management Requirements
4. NENA Standards for the Provisioning and Maintenance of GIS data to ECRF and LVFs

## Attachment B

### GIS Disbursement Maintenance Model

#### Overview

9-1-1 Addressing Authorities are responsible for providing the accurate geospatial data that is used by NCT9-1-1 to route<sup>2</sup> emergency calls to the correct Public Safety Answering Point (PSAP), and to aid First Responders in locating callers in an emergency. Misrouted calls can extend the service call time by several minutes or delay locating callers and therefore potentially lead to loss of life or property.

It is imperative to the NCT9-1-1 mission that the Geographic Information Systems (GIS) data used to route emergency service calls be as reliable and accurate as possible at any given time. The mission-critical properties of the GIS data are the premise for the generation of the GIS Disbursement Maintenance Model. NCT9-1-1 has set aside annually a target amount that each 9-1-1 Addressing Authority is capable of receiving based on the level of accuracy of the data they provide to NCT91-1. This amount is the maximum annual performance incentive amount.

#### The Model

Each County is allotted a maximum annual performance incentive amount of \$30,770, except for Collin County which is allotted a maximum annual performance amount of \$50,770.

Performance incentives amounts are calculated quarterly based on the percent of critical\* errors of all site/structure addressing points (SSAPs) in the 9-1-1 Addressing Authority's area of responsibility.

\*Critical errors are defined as errors that cause, or have a potential of causing, a critical fault in the routing of an 9-1-1 emergency service request call to the correct PSAP.

The following GIS features are considered "critical":

- Duplicate SSAP (Site Structure Address Point)
- SSAP No Value (no attribution in feature)
- Road Centerline (RCL) Range Overlaps
- RCL No Value (no attribution in feature)
- Boundary Topology Overlaps (Emergency Service Boundaries and jurisdictional boundaries)
- Boundary Topology Gaps (Emergency service boundaries and jurisdictional boundaries)

There are five performance tiers that allow for different levels of performance equating to different amounts of incentive the 9-1-1 Addressing Authority will receive for that quarter. A formula is used to determine the "workload" of Addressing Authorities and is defined as the total number of critical errors divided by the total number of Site Structure Address Points. The outcome of the formula places the Addressing Authority in the respective tier.

Performance incentive amounts are calculated each quarter using the following method:  
 Tier 1 = (# of critical errors / # SSAPs) ≤ .2% or .002 – Receive full annual incentive amount

<sup>2</sup> NCT9-1-1 routes landline and VoIP calls using geospatial data. Future standards require all calls, including wireless, to use geospatial data to route emergency calls.

Tier 2 = (# of critical errors / # SSAPs)  $\leq$  .4% or .004 – Receive 90% of annual incentive amount

Tier 3 = (# of critical errors / # SSAPs)  $\leq$  .6% or .006 – Receive 80% of annual incentive amount

Tier 4 = (# of critical errors / # SSAPs)  $\leq$  .8% or .008 – Receive 70% of annual incentive amount

Tier 5 = (# of critical errors / # SSAPs)  $>$  .8% or .008 – Receive no incentive amount

The aggregate of the incentive is divided by four to equate to a quarterly distribution.

### **Fix-it Period**

NCT9-1-1 recognizes that unforeseen circumstances can lead to rare occurrences where errors rates are inflated. For instance, when there is an unexpected influx of new data into a county's GIS database just before the Quality Control processes are completed, the error rate may inadvertently spike. NCT9-1-1 will grant a "fix-it period" when a 9-1-1 Addressing Authority's incentive tier is downgraded. This "fix-it period" will be the next full quarter after an incentive tier downgrade. In this instance the tier status will drop, but the performance incentive will remain congruent with the prior tier amount. If the error rate remains in the same tier or is further downgraded, a reduction in the tier incentive amount will immediately take effect the following quarter. The incentive amount will not increase until the next quarter that the error rate is sufficiently improved.

TEXAS DEPARTMENT OF AGRICULTURE
TEXANS FEEDING TEXANS: HOME-DELIVERED MEAL
GRANT PROGRAM

RESOLUTION AUTHORIZING COUNTY GRANT
PROGRAM YEAR 2020

A resolution of the County of Navarro (County) Texas, certifying that the county has made a grant to Community Services, Inc. (Organization), an organization that provides home-delivered meals to homebound persons in the county who are elderly and/or have a disability, and certifying that the county has approved the organization's accounting system or fiscal agent.

WHEREAS, the Organization desires to apply for grant funds from the Texas Department of Agriculture to supplement and extend existing services for homebound persons in the County who are elderly and/or have a disability, pursuant to the Home-Delivered Meal Grant Program (Program); and

WHEREAS, the Program rules require the County in which an Organization is providing home-delivered meal services to make a grant to the Organization, in order for the Organization to be eligible to receive Program grant funds; and

WHEREAS, the Program rules require the County to approve the Organization's accounting system or fiscal agent, in order for the Organization to be eligible to receive Program grant funds; and

WHEREAS, the County recognizes Daniel Edwards, Sr. (Authorized Official) as an official of the Organization applying for a Home-Delivered Meal Grant from the Texas Department of Agriculture.

BE IT RESOLVED BY THE COUNTY:

SECTION 1: The County hereby certifies that it has made a grant to the Organization in the amount of \$2,625.00 to be used between the:

1 of October 2019 and the 30 of September 2020
Day Month Year Day Month Year

SECTION 2: The County hereby certifies that the Organization provides home-delivered meals to homebound persons in the County who are elderly and/or have a disability.

SECTION 3: The County hereby certifies that it has approved the Organization's accounting system or fiscal agent which meets financial management system requirements as set forth in the Uniform Grant Management Standards promulgated by the Texas Comptroller of Public Accounts.

Introduced, read, and passed by the affirmative vote of the County Commissioners Court on this 23 day of Sept 20 19

Dear Taxing Entity,

Listed below is the Nomination Ballot and attached is an estimated cost share showing voting entitlements.

Please submit your nominations for the Navarro Central Appraisal District's Board of Director positions available for the years 2020 - 2021.

Once we receive all nominations, we will forward a ballot to you for your voting privilege.

Should you have questions, please feel free to contact our office at (903) 872-2476.

Please return the nominations to our office by September 16, 2019, via e-mail to [karen.morris@navarrocad.com](mailto:karen.morris@navarrocad.com), by fax (903) 872-3157 or by regular mail at the above referenced address.

Sincerely,

Karen Morris, R.P.A., R.T.A., C.T.A., C.C.A.

## Election Advisory No. 2014-18

**To:** Elections Officials  
**From:** Keith Ingram, Director of Elections  
**Date:** October 7, 2014  
**RE:** Central Counting and Central Accumulation Station Procedures

This advisory is to remind you of several procedures that must be followed when ballots are counted at a central counting station or when vote totals are electronically accumulated at a central accumulation station. Using these procedures will assist you in obtaining an accurate count on election night. If you have any questions regarding these procedures, please contact our Legal Department toll-free at 1-800-252-2216, Option 2.

On election night, the central counting station ("the CCS") is the place where optical scan ballots, that are not counted either manually or by an automatic precinct tabulator are tabulated by a (usually) high-speed processing scanner. The central accumulation station ("the CAS") is the place where the results of direct recording electronic ("DRE") voting equipment or automatic precinct tabulators are accumulated to produce a final report. Many Texas counties need both a CCS (for example, to count mail ballots) and a CAS (for example, to accumulate the results from the precinct DRE voting equipment, such as the IVotronic or eSlate, or from the precinct tabulators, such as the M-100 or eScan). The CCS and the CAS are the same place, and the central counting station personnel also serve as the central accumulation station personnel. Except where Subchapter F of Chapter 127 and Chapter 129 of the Texas Election Code provide different procedures for automatic precinct tabulating equipment and DREs, the provisions of Chapter 127 governing the CCS apply to the CAS. See Sections 127.001 & 129.001(b), Tex. Elec. Code.

### Central Counting Station Personnel

The CCS is composed of several groups of people. They are the CCS manager ("the manager") and the manager's clerks; the tabulation supervisor and assistant tabulation supervisors; and the presiding judge of the CCS ("the presiding judge"), the alternate judge of the CCS ("the alternate judge"), and clerks.

The authority establishing the CCS is responsible for appointing the manager, the tabulation supervisor, and the presiding and alternate judges. Although assistant tabulation supervisors are appointed by the tabulation supervisor, their appointment must be approved by the authority establishing the CCS. For the General Election for State and County Officers, the appointing authority is county commissioners court. If a political subdivision other than a county is also having an election on the same General Election date, then the governing body of that political subdivision also needs to establish a CCS and appoint CCS personnel if its ballots are being counted or its vote totals accumulated at a central station. (If the political subdivision is doing a joint election with the county or contracting with the county for election services, then the political subdivision may appoint the county's manager, tabulation supervisor, presiding judge, and alternate judge as its CCS personnel.)

The manager, the tabulation supervisor, the presiding and alternate judges, and the clerks must meet the eligibility requirements for a precinct election judge (except as noted below) and must be registered voters of the political subdivision served by the authority establishing the CCS. (However, a clerk is not ineligible if he or she is the general custodian of election records, an employee of the custodian, or any other employee of the political subdivision because the clerk is a qualified voter of another county or because the custodian is a candidate or office holder.) Assistant tabulation supervisors are not required to meet the eligibility criteria for precinct election judges or to be registered voters of the political subdivision establishing the CCS.

#### 1. Manager

The manager is in charge of the overall supervision of the CCS and must have a written plan for operation of the CCS. The manager, as well as the presiding judge, may appoint clerks to perform duties at the CCS. The manager is entitled to compensation in an amount fixed by the authority establishing the CCS. To be eligible for appointment, the manager must have knowledge and experience in the conduct of elections with the electronic voting system for which the CCS is established. Employees of a political subdivision are not disqualified from appointment as manager and, if appointed, may be paid additional compensation for their services. The general custodian of election records is eligible for appointment as the manager, even if the custodian is a candidate or officeholder.

#### 2. Tabulation Supervisor

The tabulation supervisor is responsible for counting the ballots and preparing the necessary reports such as the canvass, and the overvote and undervote reports. The tabulation supervisor is responsible for the security of the program and ensures that no person, other than assistant tabulation supervisors, operate the tabulation equipment. If the tabulation supervisor is not the programmer, the tabulation supervisor must approve the program used to count the ballots prior to election day. To be eligible for appointment, the tabulation supervisor must be trained in the operation of the automatic tabulating equipment installed at the CCS. Employees of a political subdivision are not disqualified from appointment as the tabulation supervisor. The tabulation supervisor is entitled to compensation in an amount fixed by the authority establishing the CCS.

### 3. Presiding Judge

The presiding judge and the alternate judge are appointed in the same manner as polling place officials provided in Section 32.002 of the Texas Election Code. In the General Election for State and County Officers, county commissioners court must appoint the presiding judge and alternate judge from the lists of names provided by the county chairs. The presiding judge has the same authority as a precinct election judge with respect to maintaining order and administering oaths. This authority also includes resolving any questions about voter intent on a ballot. If the manager determines that ballots will be duplicated or manually counted, and then the clerks will duplicate or hand count the ballots, but the presiding judge will resolve any questions concerning voter intent. The presiding judge may also confer and advise the manager and tabulation supervisor on the operation of the CCS. If the presiding judge is absent, the alternate judge shall serve in the capacity of presiding judge; otherwise, the alternate judge performs the duties assigned by the presiding judge. The presiding judge is the custodian of the testing materials prepared for the test until the materials are delivered to the general custodian of election records following the third test. If personnel are granted temporary absence from the CCS while the polls are still open and the counting of ballots has begun, the presiding judge shall supervise those absences.

After the tabulation supervisor has prepared the necessary reports for canvass, the presiding judge must certify their accuracy and prepare documents for proper distribution. If the results are being transmitted via modem to the CCS, the presiding judge is responsible for comparing the results transmitted with the results printed at the precinct and delivered to the CCS. The presiding judge must also deliver counted ballots and other election materials to the proper authority.

## Proper Testing of Ballots and Programming

### 1. Automatic Tabulating Equipment (Sections 127.091-127.100, Tex. Elec. Code)

Three tests are performed when using automatic tabulating equipment. All three tests are conducted using the exact same test data. The first test is conducted at least 48 hours before election day with a public notice being published in the newspaper at least 48 hours before the test. The second test, which uses the same test data, is performed immediately before the official ballots are to be counted. The final test is performed immediately after all ballots have been counted.

The testing board consists of the programmer, the tabulation supervisor, the manager, and the presiding judge.

Each political subdivision is required to have a test deck of ballots for every precinct. The test deck must be prepared on the same ballot stock as the official ballots. The test deck must include overvotes and undervotes in every race, straight party voting for every political party printed on the ballot, cross-over voting in every race when marking a straight party vote, an individual vote for every single candidate printed on the ballot, emphasis voting for candidates within the same party column as the straight party mark, and write-in voting. **Some vendors will supply a pre-completed test deck for you, but we strongly recommend that you devise your own test ballots.** The vote totals on the test must be determined before running the test deck through the tabulator; this is accomplished by manually counting the test deck and tallying up the votes prior to running the ballots through the tabulator. After the test is run, print out a cumulative report showing the vote totals of the entire test deck for each candidate or proposition, a report showing these vote totals by precinct, and the report that shows total number of ballots counted for that precinct. The precinct reports must include the number of overvotes and undervotes for each race. Also, make sure to compare your return sheet with the official ballot to ensure all candidates are represented on the report from the test. If the public test is successful, secure the test deck with the program until election day.

A successful second test must be conducted before the official ballots are counted. After the second test is complete, follow the steps above for verification of the accuracy of the test. Once that is determined, preserve the results of the second test and zero out the tabulator and accumulator before counting the official ballots.

If the third test performed after the official ballots have been counted is unsuccessful, your count of the election is void. You must first determine the problem with your programmer, correct the problem, run a successful test, and then recount all ballots.

Please note that the Secretary of State has determined that, under Section 127.152 of the Texas Election Code, it is not feasible to conduct the second and third tests on automatic precinct tabulators and DRE machines.

On completing each test, the presiding judge shall place the test ballots and other test materials in a container provided for that purpose and seal the container so it cannot be opened without breaking the seal. The manager, tabulation supervisor, presiding judge, and not more than two poll watchers, if one or more watchers are present, shall sign the seal. The test materials must remain sealed for the period for preserving the precinct election records, and the container may not be unsealed, unless the contents are necessary to conduct a test under Subchapter D of Chapter 127 of the Texas Election Code, a criminal investigation, an election contest, or other official proceeding under the Code.

## 2. Logic and Accuracy Testing for DRE Equipment (Sections 129.022-129.024, Tex. Elec. Code)

1707

Proper logic and accuracy testing of the accumulation software is required before the election night results may be accumulated, as prescribed in Section 129.023 of the Texas Election Code and [Election Advisory No. 2014-06, "Electronic Voting System Procedures."](#) The test must be designed to determine whether the central accumulator system accurately tabulates results from the electronic files used to count ballots voted in the election. The electronic files created from the logic and accuracy testing for the election must be used in the process of this test.

The logic and accuracy test, of which an automatic tabulation test constitutes a part, must be performed not later than 48 hours before voting begins on a voting system. It is the recommendation of the Secretary of State's office that such testing be done before mail ballots are sent out. Notice of the test must be published in a local newspaper not later than 48 hours before the test begins.

The testing board consists of at least two persons who are appointed by the general custodian of election records. The custodian must make every reasonable effort to ensure that the testing board consists of at least one person from each political party that holds a primary election.

A test is successful if the actual results of the logic and accuracy test are identical to the expected results.

After the test, the general custodian of election records shall place the test ballots and other test materials in a container provided for that purpose and seal the container so it cannot be opened without breaking the seal. The custodian and at least two members of the testing board shall sign the seal. The test materials must remain sealed for the period for preserving the precinct election records, and the container may not be unsealed, unless the contents are necessary to conduct a test under Subchapter B of Chapter 129 of the Texas Election Code, a criminal investigation, an election contest, or other official proceeding under the Code.

## Preliminary Sort of Optical Scan Ballots and Counting at the CCS

### 1. Ballot Box Security

The governing body, when establishing the CCS, must follow Subchapter C of Chapter 127 of the Texas Election Code. The ballot box used at the precinct for the deposit of cast ballots must be locked and sealed (called pre-locked and pre-sealed) prior to the precinct election judge picking up the box for use on election day. The lock and the seal must be on the same hatch of the ballot box, which prevents the box from being opened unless both the lock and the seal are removed. The slot of the box for depositing ballots must also be sealed either with a wire hasp seal or a paper seal, depending on the design of the box. The slot of the ballot box for depositing ballots must be resealed before delivery to the CCS. Before sealing the slot, the precinct election judge must complete a ballot and seal certificate stating the number of ballots in the box, as shown by the number of voters who signed the signature roster (or combination form), the number of provisional ballots as shown on the list of provisional voters and the serial number of the seal used to seal the slot. The original of the ballot and seal certificate must be deposited in the box before the seal is placed on the slot.

### 2. Receipt of Ballot Boxes

The presiding judge or his or her designee is responsible for receiving the ballot boxes at the CCS; any reference in this advisory regarding actions of the presiding judge should be taken to include a counting station clerk acting as the judge's designee. A list of the serial numbers of the seals used to seal the ballot boxes before election day and a list of serial numbers of seals given to the precinct election judge to use to seal the slot of the box on election night must be prepared and given to the presiding judge. When the presiding judge receives the boxes, the judge must make sure the serial numbers of the seals used to secure the boxes before election day and at the close of the polls are the same as the serial numbers on the lists. Once this check is made, the presiding judge must issue the precinct election judge a receipt confirming the ballot box serial numbers. If there is a discrepancy in the serial numbers, the presiding judge must make a notation of this on the receipt. The original of the receipt is then given to the precinct election judge, and a copy of the receipt is kept by the presiding judge. The presiding judge must inspect the box for its contents and make sure all the records are delivered with the box; the presiding judge must check that the ballot and seal certificate is delivered in the ballot box.

### 3. Sorting, Duplication, and Voter Intent

The presiding judge will instruct the counting station clerks to do a preliminary sort of the ballots before counting. The clerks must first separate out the provisional ballot envelopes from the other ballots and verify the number of provisional ballots received in the box is the same number as shown on the list of provisional voters. The provisional ballots are delivered to the general custodian of records along with the list. The other ballots are then sorted for write-in votes, partially-invalid ballots, damaged ballots, and irregularly-marked ballots. **This sorting must be completed before ballots are counted.** After the ballots have been sorted, they are delivered to the manager. The manager will determine whether ballots are to be duplicated for counting by the voting system or whether they will be hand-counted. If the ballots are to be duplicated, the presiding judge shall have his/her clerks duplicate the ballots. It is the presiding judge that has the authority to determine the intent of the voter if there is a question on the ballot. The duplication team must record the serial number of the original ballot on the duplicate ballot and vice versa. After reviewing the irregularly marked ballots and duplicating ballots to indicate voter intent, as determined by the presiding judge, the manager shall accept the ballots for counting. If the manager determines to hand count these ballots, the presiding judge shall assign his/her clerks into tally teams to perform the hand count.

### 4. Counting; Write-In Votes

Since all ballot boxes will be pre-locked and pre-sealed, thereby preventing precinct election judges from having any access to voted ballots on election day, write-in votes must be counted at the CCS. After the ballots have been hand-sorted and any irregularly-marked ballots are resolved and duplicated if necessary, the ballots will be sent to the tabulators. The tabulators can be set to stop when a ballot containing a write-in vote is counted. These ballots may then be set aside to be delivered to a tally team to count the write-in votes for the declared write-in candidates. It is important to keep track of these ballots to ensure that, after the manual tally of the write-in votes is completed, the ballots are returned to the box containing other ballots for that precinct and stored properly. For a more in-depth discussion regarding counting write-in votes, please refer to [Election Advisory No. 2014-20, "Processing and Counting Write-In Votes Cast on Electronic Voting Systems."](#)

## 5. Tabulation of Overvotes & Undervotes

Section 127.1301 of the Texas Election Code requires the tabulation of overvotes and undervotes by office and proposition and by election precinct. The tabulation device may do this automatically. **If not, the manager will have to provide a record of this information by hand.** The record is preserved with other election records for the twenty-two month federal retention period and for the 60-day preservation period, as applicable.

## Preparation for and Accumulating Voting Results from Automatic Precinct Tabulators and DREs

Automatic precinct tabulating equipment requires voters to deposit their ballots directly into the tabulator unit at the early voting location or polling place. The tabulator unit compiles vote totals by ballot sorting, ballot reading, ballot scanning, or electronic data processing. Voters directly vote on DRE voting equipment by manual touch of a screen, monitor, or other device, and the equipment records the individual votes and vote totals electronically. The results from automatic precinct tabulating equipment and from DRE voting equipment are printed out on tapes from the equipment after the polls close and the last voter at the polls has voted. The results are also contained on the electronic information storage medium stored within the election equipment. The medium is run through the central accumulator system to produce a cumulative result and precinct reports. Neither the automatic precinct tabulating equipment nor the DRE voting equipment can tabulate a write-in vote, other than to indicate that a write-in vote has been cast.

### 1. Security of Electronic Information Storage Medium and Voting System Equipment

Just as Subchapter C of Chapter 127 of the Texas Election Code provides a method for securely delivering the sealed ballot boxes containing voted ballots from the polling place to the CCS, the general custodian of records is required to provide for the secure delivery of electronic information storage medium from the polling place to the CAS. Sections 129.051 and 129.052 of the Texas Election Code require the general custodian of election records (in the General Election for State and County Officers, the county clerk or county elections administrator is the custodian) to (i) maintain an inventory of all electronic information storage medium; (ii) develop a procedure for tracking the custody of all electronic information storage medium from the time they are brought out of the storage location, through election coding and the election process, and returned to storage; (iii) establish a secured location where electronic information storage medium can be stored when not in use, coded for an election, and transferred to and installed into the voting system equipment and the voting system equipment stored after the election parameters are loaded; (iv) create a procedure for tracking voting system equipment once the election parameters are loaded; and (v) adopt procedures for securely transporting voting system equipment. In summary, the general custodian of election records establishes the procedures that the personnel at the CAS must follow when the voting equipment and/or the election information storage medium is brought in by the precinct election judge (or his/her designated election clerk) on election night.

### 2. Receipt of Electronic Information Storage Medium and Voting System Equipment

The chain of custody must require two or more individuals to perform a check and verification check whenever a transfer of custody occurs of the electronic information storage medium and voting system equipment. This means that when the medium is brought by the precinct election judge (or the election clerk designated by him or her) to the CAS after the polls close on election night, whether it is secured in a bag with lock and seal approved by the Secretary of State's office or remains secured in the precinct voting system equipment, the CCS/CAS personnel designated (in accordance with the plan for counting/accumulating station operation developed by the manager) must perform a check and verification check to establish that the chain of custody has occurred and been maintained. Once the medium has been removed from the bag or the voting system equipment, the CCS/CAS personnel designated in accordance with the manager's plan will deliver the medium to the tabulation supervisor.

### 3. Sorting, Duplicating, and Voter Intent

There are fewer voter intent errors when using DRE voting equipment. However, a voter may still misspell a declared write-in candidate's name and in that event, these "ballots" need to be reviewed for voter intent. All write-in votes that are not written exactly as the name appears on the list of declared write-ins must be reviewed at the CAS for voter intent. The presiding judge determines the voter intent. This is done by printing out a report listing all the various irregular write-in entries (entries that do not match exactly the name as it appears on the list of declared write-ins), printing a list showing write-in votes, or using the printed election results from each precinct. The presiding judge reviews the list and determines which ones may be accepted and which ones must be rejected. Each DRE voting system treats the process of accepting or rejecting a write-in vote slightly differently, but they all involve the same manner of review for voter intent at the CCS/CAS.

The law requires that all optical scan ballots tabulated by automatic precinct tabulators be reviewed for irregular marks. If the voters deposit their ballots directly into a unit of automatic tabulating equipment at the election day polling place, while the polls are open or as soon as practicable

after the polls close, the election officers must remove the counted ballots from the ballot box and examine them for irregular marks. The ballot box may not be opened for such purpose unless there are at least 10 ballots in the box. If an election officer determines that two or more ballots were improperly tabulated because of irregular marks, the irregularly-marked ballots shall be separated from those that were marked properly, and all of the ballots shall be delivered to a central counting station. At the central counting station, the irregularly-marked ballots must be duplicated and all the ballots are processed as though they were ballots counted at a central counting station. The tabulation conducted at the central counting station becomes the official tabulation of those ballots. If just one ballot is found to be irregularly-marked, then just that one ballot is examined at the central counting station, and adjustments made to the totals certified by the election judge. The election results for the affected precinct must be manually entered into the election processing system. See, Section 127.157, Tex. Elec. Code.

For a more in-depth discussion regarding counting write-in votes on DRE voting equipment and automatic precinct tabulators, please refer to Election Advisory No. 2014-20, "Processing and Counting Write-In Votes Cast on Electronic Voting Systems."

**4. Accumulating**

After uploading the precinct results (usually by inserting the election information storage medium into a card reader) to the central accumulator system, the presiding judge must verify for each election precinct and document that the central accumulator's record of number of votes cast matches the number of votes cast shown on the tapes from the voting equipment printed out at the election precinct's polling place and the number of signatures on the combination form. If there is a discrepancy, the presiding judge determines if further audit is necessary.

**Checklist for the Central Counting Station**

- All ballot boxes are delivered and a comparison of serial numbers of seal and log is made to be sure the correct seal has been placed on the box, according to the log of distributed seals. Wire hasp seals are properly kept.
- All election records are received at the CCS.
- Ballot and seal certificate is located in ballot box.
- Ballots are sorted and resolved or duplicated before delivery to tabulation supervisor. Provisional ballots are delivered to the general custodian of records with the list of provisional voters.
- Before the tabulation of ballots is started, the second test is successfully run.
- All voted ballots are carefully tracked as they move through the counting station. Some counties create "tracking sheets" that follow each precinct's ballots, and a clerk signs off on the sheet at each stage in the counting process (sorting, duplicating when necessary, beginning counting, finishing counting, storage area.). This ensures that all ballots are counted and that none are counted twice.
- Duplicated ballots are properly noted and the serial number of the original ballot is written on the duplicate ballot and vice versa. Original ballots that are duplicated are placed in an envelope designated for such purpose and are locked in the appropriate ballot box with other ballots from the same precinct.
- All ballots are counted and verified against the ballot and seal certificate.
- Status report is printed and it is verified that all precincts had been counted.
- Precinct report is printed showing the number of ballots counted for each precinct.
- Cumulative report is printed indicating all votes from all precincts are included in the cumulative report.
- The audit log is examined for counting interruptions, unauthorized equipment tampering, or any other activity that might make the vote totals questionable.
- All reports are printed in number of copies statutorily required.
- Precinct returns are backed up to disk or tape if applicable to system.
- The third test is successful and results are verified with test results. (If the third test is not successful after retry, the ballots must be counted manually or another tabulator must be secured from the vendor or a neighboring county.)
- All ballot boxes containing voted ballots are properly locked, with an indication on the outside of each box showing which precinct's ballots are contained in that box. Keys to ballot box locks are properly distributed. For ballot boxes that have a flap to cover the slot for the deposit of ballots, a log recording the serial number of the wire hasp seal used to seal slot is kept and signed by two election officials.

**Checklist for the Central Accumulation Station**

- In the case of ballots from automatic precinct tabulators to be counted under Sections 127.156 and 127.157 of the Texas Election Code, if any, all secured ballot containers are delivered and a comparison of serial numbers of seal and log is made to be sure the correct seal has been placed on the box, according to the log of distributed seals. Wire hasp seals are properly kept.
- In the case of automatic precinct tabulators and DRE voting machines, all electronic information storage medium are delivered to the CCS/CAS secured either in a bag with lock and seal approved by the Secretary of State's office or in the precinct voting system equipment. The CCS/CAS personnel designated (in accordance with the plan for counting/accumulating station operation developed by the manager) must perform a check and verification check to establish that the chain of custody has occurred and been maintained and otherwise follow the security procedures developed by the general custodian of election records.
- All election records are received at the CAS.
- If applicable, ballot and seal certificate is located in the secured ballot container.
- If applicable, ballots are sorted and resolved or duplicated before delivery to tabulation supervisor. Provisional ballots are delivered to the general custodian of records with the list of provisional voters. Duplicated ballots are properly noted and the serial number of the original ballot is written on the duplicate ballot and vice versa. Original ballots that are duplicated are placed in an envelope designated for such purpose and are locked in the appropriate ballot box with other ballots from the same precinct.
- If applicable, before the tabulation of ballots is started, the second test is successfully run.
- If applicable, all ballots are counted and verified against the ballot and seal certificate.
- If applicable, all voted ballots are carefully tracked as they move through the counting station. Some counties create "tracking sheets" that follow each precinct's ballots, and a clerk signs off on the sheet at each stage in the counting process (sorting, duplicating when necessary, beginning counting, finishing counting, storage area.). This ensures that all ballots are counted and that none are counted twice.
- All electronic storage media are tracked as they move through the counting station, ensuring that all media are accumulated and none are left out.
- After the tabulation supervisor uploads the precinct results from the medium to the central accumulator system, the presiding judge must verify and document that the central accumulator's record of number of votes cast matches the number of signatures on the combination form or ballot and seal certificate for that precinct. The presiding judge must also verify that the central accumulator's vote results match those on the tapes that were printed at the polling place. If there is a discrepancy, the presiding judge determines if a further audit is necessary.
- If applicable, after the tabulation of ballots is completed, the third test is successfully run and the results are verified with test results. (If the third test is not successful after retry, the ballots must be counted manually or another tabulator must be secured from the vendor or a neighboring county.)
- For automatic precinct tabulators using prom pak (or other device), precinct returns printed from prom pak at the CCS/CAS are compared to the precinct returns printed at the precinct level, to ensure that that precinct totals match.
- For automatic precinct tabulators using modem transfer, a comparison of returns transferred via modem to the CAS is made with precinct returns printed at precinct level.
- Status report is printed and it is verified that all precincts had been counted.
- Precinct report is printed showing the number of ballots counted for each precinct.
- Cumulative report is printed indicating all votes from all precincts are included in the cumulative report.
- The audit log is examined for counting interruptions, unauthorized equipment tampering, or any other activity that might make the vote totals questionable.
- All reports are printed in number of copies statutorily required.
- If applicable all ballot boxes containing voted ballots are properly locked, with an indication on the outside of each box showing which precinct's ballots are contained in that box. Keys to ballot box locks are properly distributed. For ballot boxes that have a flap to cover the slot for the deposit of ballots, a log recording the serial number of the wire hasp seal used to seal slot is kept and signed by two election officials.
- Precinct returns are backed up to disk or tape if applicable to system.
- Prior to the local canvass, the election official must verify that the vote total(s) printed at the precinct match the reports generated by the CAS.

Following these procedures ensures that state law is correctly followed, but perhaps even more importantly, ensures that the election authority has taken all precautions to ensure accurate election night results. If you have questions about any of these procedures, please contact the Elections

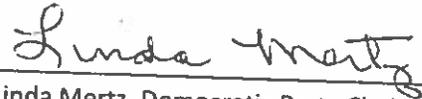

Supplemental List of Democratic Judges 9/23/2019

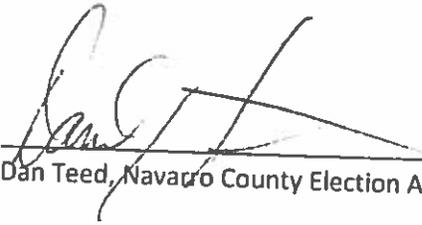

These judges replace the ones appointed for these locations in August.

Navarro College Cook Center: ~~Now~~ judge Barbara White

Martin Luther King, Jr.: Vivian Jackson

Pursley Vol. Fire Department: Bobby Curry

  
Linda Mertz, Democratic Party Chair

  
Dan Teed, Navarro County Election Administrator

### Apportionment of Presiding and Alternate Judge Polling Locations Following the 2018 Gubernatorial Election

**Explanation:**

In 2018, the majority of votes in 3 out of Navarro County's 30 precincts were for the Democratic gubernatorial candidate, while the majority in the other 27 were for the Republican candidate. Navarro County has 20 polling locations.

Texas Election Code 32.001 (c-1) states that the Commissioners Court shall "apportion the number of judges in direct proportion to the percentage of precincts located in each county commissioners precinct won by each party in the last gubernatorial election."

All precincts in each commissioner precinct except precinct 2 saw Republican governor candidate majority votes.

In commissioner precinct 2, 3 of the 7 precincts voted majority Democrat. 4 voted majority Republican. Commissioner precinct 2 contains 5 countywide polling locations, Kerens ISD, Bears Den, MLK Center, Eureka, and Mildred.

Where x is the number of polling locations majority Democrat,

$$\begin{aligned} 3/7 &= x/5 \\ x &= 15/7 \\ x &= 2.143 \end{aligned}$$

Therefore, the number of Democratic apportionments must be either 2 or 3.
