JUDGE, 13TH JUDICIAL DISTRICT COURT  
NAVARRO COUNTY COURTHOUSE

RE: Temporary Orders / Modification of Time Limits

Dear Counsel:

Effective immediately, the Court will give each side 15 minutes on Temporary Orders hearings except in cases where there are allegations of sexual or serious physical abuse of a child. This rule will continue until another Court is in place or this Court can hold extended hours obviously within the budget constraints of Navarro County.

In closing, I trust you and your clients will understand the limited amount of time the Court has not only to preside over all hearings (contested and uncontested) but also perform the other duties such as issuing rulings and dealing with the administrative matters that go along with this position. It is my understanding that there is a possibility of furlough days which I do not know at this time how they will affect this Court but trust it could affect our time in the courtroom.

Please contact the Court if you have any concerns or suggestions.

Sincerely,

A handwritten signature in black ink, appearing to read "James Lagomarsino".
