Option 3: _____ Suffix _____

Description of Road Location (attach map or sketch) _____

Steps to Road Naming in Navarro County

Submit proposed road name(s) to Navarro County Planning & Development.

Proposed road names must be reviewed by the Navarro County Addressing Coordinator to determine if the proposed road name follows the Navarro County Addressing Standards and Procedures. Submitting a list of proposed road names prior to submitting the plat for approval with commissioner's court is advised to prevent delays should the road name(s) need to be changed due to conflicts with County Addressing Standards and Procedures. ROAD NAME PRE-APPROVAL IS NOT SUBDIVISION APPLICATION APPROVAL AND ALL SUBDIVISION REGULATION PROCESSING MUST BE COMPLETED.

Proper spelling of the proposed road names is the responsibility of the requester. Duplication of an existing road name is prohibited: use of the same primary road name with a different suffix is considered duplication.

Additional information on road naming can be found in the Navarro County Addressing Standards and Procedures.

Note: All public & private roads in Navarro County must be mapped by the addressing coordinator before addresses can be issued.
