

NOTICE TO IRION COUNTY TAXPAYERS

The percentage in the Notice of Tax Revenue Increase as prescribed by the State Comptroller of Texas shows the effective rate increase but does not reflect the true percentage increase over the M & O effective tax rate, and does not take into account the factors of the criminal justice mandate or indigent health care expenses incurred by the county and figured into the calculations to obtain a rollback tax rate as also prescribed by the State Comptroller of Texas. By law taxing units may adopt a tax rate under the rollback tax rate by publishing this notice and holding two public hearings. Irion County is proposing a tax rate that is the SAME AS THE 2012 tax rate so you should not see an increase unless the value of your home increased and you would be notified in May of that increase by the Irion County Appraisal District. On a \$100,000 home the taxes will STAY THE SAME. The cost to publish this ad is \$1115.10.
