RFI Response 02
May 9, 2024**

Questions:

1. Would you happen to know what horse power, cabbed, or open rops, high flow or standard on the track loader? Also, on the auger attachment do they want round or hex and what size auger bits are they needing for it. As far as the cutter, do they need straight deck, batwing, and what size? **CORRECTED ANSWERS: FROM RFI RESPONSE 01**

Response:

Horse power; 96 HP cabbed

Track Loader; High flow

Auger attachment; Hex, 9" and 18"

Cutter; Flex winged 15' with 125 HP gearboxes, CAT 6 drive lines, 8 foam filled tires, ball type hitch and airbag suspension

2. Can I please get more information on the width of the cold planner needed and the length of the angle broom, as well as the length of the pallet forks please ma'am?

Response:

Cold Planner; Width 760 mm or 30in / Hydraulic Flow 109-155 L/min (29-41 gpm) / operating weight 1260 kg (2.780 lb)

Length of the angle broom; 96" / 50/50 poly wire mix

Length of the pallet forks; 60" Pallet forks, Frame and Tine Kit / 9900lb load rating
