**DEFINITIONS**

**CCF** 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

**Customer charge and base amount.** Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

**Gas Cost Adjustment (GCA)** is the cost CenterPoint Energy pays for the gas it delivers to its customers.

**Storage inventory charge** allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

**Tax act 2022** reflects a charge or a credit related to impacts of the Inflation Reduction Act such as the cost of deferred tax assets and income tax credits.

**Reimbursement of local franchise fee** is a fee paid to the city for the company's use of right-of-way in streets and alleys.

**Reimbursement of state gross receipts tax** is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 800-427-7142.

**It's time to get rid of paper clutter and go paperless!**

Now is the perfect time to break free from paper bills! Add convenience to your life with Paperless Billing. It's simple:

- Get an email when your bill is ready to view and pay
- Choose how you want to pay
- Set up alerts to remind you when your bill is due

Visit [CenterPointEnergy.com/Paperless](http://CenterPointEnergy.com/Paperless) or scan the QR Code to get started.

250624-04

**Know the signs and stay safe around carbon monoxide!**

Carbon monoxide (CO) safety is crucial because CO is a colorless, odorless gas that can be deadly when inhaled in high concentrations.

**Symptoms of exposure:** Exposure to carbon monoxide can lead to symptoms such as headaches, dizziness, nausea, confusion and even loss of consciousness. Prolonged exposure can be fatal.

**Early warning devices:** Install and/or test the carbon monoxide detectors in your home. These devices can alert you to the presence of carbon monoxide before it reaches dangerous levels.

**Ventilation:** Make sure all combustion appliances are adequately maintained and properly vented according to manufacturer's specifications. This includes gas stoves, fireplaces, furnaces and water heaters.

Learn more at [CenterPointEnergy.com/COsafety](http://CenterPointEnergy.com/COsafety).

## The CenterPoint Energy app is now available

Manage your account anytime – view and pay your bill, track energy usage and get bill reminders with push alerts. To get started, download “CenterPoint Energy My Account” from the App Store or Google Play. Sign in with your My Account login or register at [CenterPointEnergy.com/MyAccount](https://CenterPointEnergy.com/MyAccount).

## Activate your storm mode with these helpful tips!

Storm season is here! Check out these tips to stay safe and prepared:

- If you smell natural gas, leave immediately on foot to a safe location and call CenterPoint and 911.
- Never turn your gas off at the meter.
- While you are making repairs, always call 811 before you start digging.
- Be aware of where your natural gas meter is located and make sure it is not damaged, as that can cause a hazardous situation.

Visit [CenterPointEnergy.com/WeatherSafety](https://CenterPointEnergy.com/WeatherSafety) or scan the QR code to get started.

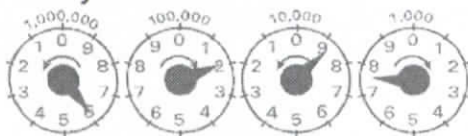

250624\_02

## A safety message from CenterPoint Energy

If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815. Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

### How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the “thousand-foot” dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the “10-thousand” dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned “same or lower number rule” must be applied. Since the pointer in the “thousand-foot” dial to the right is nearer the 8 and the pointer has not reached the 0, the “10-thousand” dial should be read as 8.

3. Read the “100-thousand” dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the “10-thousand” dial is between 8 and 9, take the lower reading number, 1, for the “100-thousand” dial.

4. Read the left-most dial, the “million-foot” dial. The pointer is near the 6. Using the “same or lower number rule”, we find the pointer on the dial to the right is between 1 and 2, so we read the “million-foot” dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the “thousand-foot” dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the “100-thousand” dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned “same or lower number rule” must be applied. Since the pointer in the “thousand-foot” dial to the right is nearer the 8 and the pointer has not reached the 0, the “100-thousand” dial should be read as 8.

3. Read the “100-thousand” dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the “100-thousand” dial is between 8 and 9, take the lower reading number, 1, for the “100-thousand” dial.

4. Read the left-most dial, the “million-foot” dial. The pointer is near the 6. Using the “same or lower number rule”, we find the pointer on the dial to the right is between 1 and 2, so we read the “million-foot” dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.

## DEFINITIONS

**CCF** 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

**Customer charge and base amount.** Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

**Gas Cost Adjustment (GCA)** is the cost CenterPoint Energy pays for the gas it delivers to its customers.

**Storage inventory charge** allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

**Tax act 2022** reflects a charge or a credit related to impacts of the Inflation Reduction Act such as the cost of deferred tax assets and income tax credits.

**Reimbursement of local franchise fee** is a fee paid to the city for the company's use of right-of-way in streets and alleys.

**Reimbursement of state gross receipts tax** is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 800-427-7142.

## Know the signs and stay safe around carbon monoxide!

Carbon monoxide (CO) safety is crucial because CO is a colorless, odorless gas that can be deadly when inhaled in high concentrations.

**Symptoms of exposure:** Exposure to carbon monoxide can lead to symptoms such as headaches, dizziness, nausea, confusion and even loss of consciousness. Prolonged exposure can be fatal.

**Early warning devices:** Install and/or test the carbon monoxide detectors in your home. These devices can alert you to the presence of carbon monoxide before it reaches dangerous levels.

**Ventilation:** Make sure all combustion appliances are adequately maintained and properly vented according to manufacturer's specifications. This includes gas stoves, fireplaces, furnaces and water heaters.

Learn more at [CenterPointEnergy.com/COSafety](http://CenterPointEnergy.com/COSafety).

## Activate your storm mode with these helpful tips!

Storm season is here! Check out these tips to stay safe and prepared:

- If you smell natural gas, leave immediately on foot to a safe location and call CenterPoint and 911.
- Never turn your gas off at the meter.
- While you are making repairs, always call 811 before you start digging.
- Be aware of where your natural gas meter is located and make sure it is not damaged, as that can cause a hazardous situation.

Visit [CenterPointEnergy.com/WeatherSafety](https://CenterPointEnergy.com/WeatherSafety) or scan the QR code to get started.

## A safety message from CenterPoint Energy

If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815. Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

### How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the “thousand-foot” dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the “100-thousand” dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned “same or lower number rule” must be applied. Since the pointer in the “thousand-foot” dial to the right is nearer the 8 and the pointer has not reached the 0, the “100-thousand” dial should be read as 8.

3. Read the “100-thousand” dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the “100-thousand” dial is between 8 and 9, take the lower reading number, 1, for the “100-thousand” dial.

4. Read the left-most dial, the “million-foot” dial. The pointer is near the 6. Using the “same or lower number rule”, we find the pointer on the dial to the right is between 1 and 2, so we read the “million-foot” dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.
