FORECLOSURES

Notice of Sale Posting Search: You can research for free the foreclosure listings on this site. This availability is offered as a convenience to the public and is not required by law.

The foreclosure listing file is a single large file that you may download for free. After a trustee files the Notice of Sale the clerk's office does not in any way maintain the list other than to add to it.

These documents are neither county clerk records nor permanent records. Each month's file is destroyed the day after the sale. For these reasons, the postings are neither indexed nor searchable at this time. The clerk's office apologizes for any inconvenience you may experience.

All postings are available for in-person public viewing in the County Clerk's Office at the Lamar County Courthouse.
