GENERAL INFORMATION: Water Code Section 49.001 defines a water district as any district or authority created by Texas Constitution, Article XVI, Section 59 or Article III, Sections 52(b)(1) and (2), but does not include:

- any navigation district or port authority created under general or special law or any conservation and reclamation district created by Chapter 62, Acts of the 52nd Legislature, 1951 (Article 8280-141, Vernon's Texas Civil Statutes), or
- any conservation and reclamation district governed by Water Code Chapter 36 unless a special law creating the district or amending the law creating the district states that Water Code Chapter 49 applies to that district.

Water Code Sections 49.107(g) and 49.108(f) provide that Tax Code Sections 26.04, 26.05 and 26.07 do not apply to taxing units created under Water Code Section 49.001 that levy and collect taxes under Water Code Sections 49.107 and 49.108. Water districts must follow Water Code Section 49.236, requiring a public hearing on a proposed tax rate and publishing a special hearing notice.

This worksheet is provided to assist water districts in determining their rollback tax rate. The information provided in this worksheet is offered as technical assistance and not legal advice. Water districts should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: Rollback Tax Rate

The rollback tax rate is the highest rate the water district may adopt without authorizing qualified voters to petition for a rollback election. The rollback rate is the current year's debt service and contract tax rates, plus the maintenance and operation (M&O) rate that would impose no more than 1.08 times the amount of M&O tax imposed by the water district in the preceding year on the average appraised value of a residence homestead in the water district. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the effective tax rate and rollback tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest.

School districts do not use this form, but instead use Comptroller Form 50-859 Tax Rate Calculation Worksheet for School Districts.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 Water District Rollback Tax Rate Worksheet.

This worksheet is provided to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: Effective Tax Rate (No New Taxes)

The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the effective tax rate should decrease.

The effective tax rate for a county is the sum of the effective tax rates calculated for each type of tax the county levies.

Effective Tax Rate Activity	Amount/Rate
1. 2017 total taxable value. Enter the amount of 2017 taxable value on the 2017 tax roll today. Include any adjustments since last year's certification; exclude Tax Code Section 25.25(d) one-third over-appraisal corrections from these adjustments. This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2) and the captured value for tax increment financing (will deduct taxes in Line 14).	\$1,592,986,861
2. 2017 tax ceilings. Counties, cities and junior college districts. Enter 2017 total taxable	
value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. Other taxing units enter 0. If your taxing units adopted the tax ceiling provision in 2017 or a prior year for homeowners age 65 or older or disabled, use this step. ²	\$0
3. Preliminary 2017 adjusted taxable value. Subtract Line 2 from Line 1.	\$1,592,986,861
4. 2017 total adopted tax rate.	\$0.020549/\$100
5. 2017 taxable value lost because court appeals of ARB decisions reduced 2017

B. 2017 values resulting from final court decisions.	\$0
C. 2017 value loss. Subtract B from A. ³	\$0

7. 2017 taxable value of property in territory the taxing unit deannexed after Jan. 1, 2017. Enter the 2017 value of property in deannexed territory. ⁴	\$0
8. 2017 taxable value lost because property first qualified for an exemption in 2018.	

Note that lowering the amount or percentage of an existing exemption does not create a new exemption or reduce taxable value. If the taxing unit increased an original exemption, use the difference between the original exempted amount and the increased exempted amount. Do not include value lost to freeport or goods-in-transit exemptions.	
A. Absolute exemptions. Use 2017 market value:	\$0
B. Partial exemptions. 2018 exemption amount or 2018 percentage exemption times 2017 value:	\$280,000
C. Value loss. Add A and B. ⁵	\$280,000
9. 2017 taxable value lost because property first qualified for agricultural appraisal (1-d or 1-d-1), timber appraisal, recreational/scenic appraisal or public access airport special appraisal in 2018. Use only properties that qualified in 2018 for the first time; do not use properties that qualified in 2017.	
A. 2017 market value:	\$0
B. 2018 productivity or special appraised value:	\$0
C. Value loss. Subtract B from A. ⁶	\$0
10. Total adjustments for lost value. Add lines 7, 8C and 9C.	\$280,000

Types of refunds include court decisions, Tax Code Section 25.25(b) and (c) corrections and Tax Code Section 31.11 payment errors. Do not include refunds for tax year 2017. This line applies only to tax years preceding tax year 2017.	\$1,726
14. Taxes in tax increment financing (TIF) for tax year 2017. Enter the amount of taxes paid into the tax increment fund for a reinvestment zone as agreed by the taxing unit. If the taxing unit has no 2018 captured appraised value in Line 16D, enter 0.8	\$0
15. Adjusted 2017 taxes with refunds and TIF adjustment. Add Lines 12 and 13, subtract Line 14.9	\$329,011
16. Total 2018 taxable value on the 2018 certified appraisal roll today. This value includes only certified values and includes the total taxable value of homesteads with tax ceilings (will deduct in Line 18). These homesteads include homeowners age 65 or older or disabled. ¹⁰	
A. Certified values:	\$1,592,011,430

E. Total 2018 value. Add A and B, then subtract C and D.	\$1,592,011,430
17. Total value of properties under protest or not included on certified appraisal roll. 12	
A. 2018 taxable value of properties under protest. The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of	\$0
the properties under protest, use the lowest of these values. Enter the total value. ¹³	
B. 2018 value of properties not under protest or included on certified appraisal roll. The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about, but are not included in the appraisal roll certification. These properties also are not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. Use the lower market, appraised or taxable value (as appropriate). Enter the total value. ¹⁴	\$0

21. Total 2018 taxable value of new improvements and new personal property located in new improvements. New means the item was not on the appraisal roll in 2017. An improvement is a building, structure, fixture or fence erected on or affixed to land. New additions to existing improvements may be included if the appraised value can be determined. New personal property in a new improvement must have been brought into the taxing unit after Jan. 1, 2017, and be located in a new improvement. New improvements do include property on which a tax abatement agreement has expired for 2018. ¹⁷	\$2,663,100
22. Total adjustments to the 2018 taxable value. Add Lines 20 and 21.	\$2,663,100
23. 2018 adjusted taxable value. Subtract Line 22 from Line 19.	\$1,589,348,330

SECTION 2: Rollback Tax Rate

The rollback tax rate is split into two separate rates:

- 1. **Maintenance and Operations (M&O):** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus eight percent. This rate accounts for such things as salaries, utilities and day-to-day operations.
- 2. **Debt:** The debt tax rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The rollback tax rate for a county is the sum of the rollback tax rates calculated for each type of tax the county levies. In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a taxing unit's debt service will cause the effective tax rate to be higher than the rollback tax rate.

Rollback Tax Rate Activity	Amount/Rate
26. 2017 maintenance and operations (M&O) tax rate.	\$0/\$100
27. 2017 adjusted taxable value. Enter the amount from Line 11.	\$1,592,706,861

40. COUNTIES ONLY. Add together the rollback tax rates for each type of tax the county levies. The total is the 2018 county rollback tax rate.	

SECTION 3: Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its effective and rollback tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its effective tax rate and/or rollback tax rate because it adopted the additional sales tax.

SECTION 4: Additional Rollback Protection for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

GENERAL INFORMATION: Water Code Section 49.001 defines a water district as any district or authority created by Texas Constitution, Article XVI, Section 59 or Article III, Sections 52(b)(1) and (2), but does not include:

- any navigation district or port authority created under general or special law or any conservation and reclamation district created by Chapter 62, Acts of the 52nd Legislature, 1951 (Article 8280-141, Vernon's Texas Civil Statutes), or
- any conservation and reclamation district governed by Water Code Chapter 36 unless a special law creating the district or amending the law creating the district states that Water Code Chapter 49 applies to that district.

Water Code Sections 49.107(g) and 49.108(f) provide that Tax Code Sections 26.04, 26.05 and 26.07 do not apply to taxing units created under Water Code Section 49.001 that levy and collect taxes under Water Code Sections 49.107 and 49.108. Water districts must follow Water Code Section 49.236, requiring a public hearing on a proposed tax rate and publishing a special hearing notice.

This worksheet is provided to assist water districts in determining their rollback tax rate. The information provided in this worksheet is offered as technical assistance and not legal advice. Water districts should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: Rollback Tax Rate The rollback tax rate is the highest rate the water district may adopt without authorizing qualified voters to petition for a rollback election. The rollback rate is the current year's debt service and contract tax rates, plus the maintenance and operation (M&O) rate that would impose no more than 1.08 times the amount of M&O tax imposed by the water district in the preceding year on the average appraised value of a residence homestead in the water district. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older. Amount/Rate Activity \$103,475 . 2018 average appraised value of residence homestead. 2. 2018 general exemptions available for the average homestead (excluding age 65 or older or disabled persons \$5,000 exemptions). 5. 2018 average taxable value of residence homestead (Line $1\ \mathrm{minus\ Line\ 2}$). \$98,475 1. 2018 adopted M&O tax rate (per \$100 of value). \$0.024175/\$100 5. 2018 M&O tax on average residence homestead (Multiply Line 3 by Line 4, divide by \$100). \$23.87 6. GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the effective tax rateand rollback tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts afterthe chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest.

School districts do not use this form, but instead use Comptroller Form 50-859 Tax Rate Calculation Worksheet for School Districts.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 Water DistrictRollback Tax Rate Worksheet.

This worksheet is provided to assist taxing units in determining tax rates. The information provided in this worksheet is offered astechnical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: Effective Tax Rate (No New Taxes)

The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate thatwould produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the effective tax rate should decrease.

The effective tax rate for a county is the sum of the effective tax rates calculated for each type of tax the county levies.

Effective Tax Rate Activity	Amount/Rate
1. 2018 total taxable value. Enter the amount of 2018 taxable value on the 2018 tax roll today. Include any adjustments since last year's certification; exclude Tax Code Section 25.25(d) one-third over-appraisal corrections from these adjustments. 17. Total value of properties under protest or not included on certified appraisal roll. 12	
A. 2019 taxable value of properties under protest. The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value. ¹³	\$91,691,880
B. 2019 value of properties not under protest or included on certified appraisal roll. The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about, but are not included in the appraisal roll certification. SECTION 2: Rollback Tax Rate

The rollback tax rate is split into two separate rates:

- 1. **Maintenance and Operations (M&O):** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied inthe prior year plus eight percent. This rate accounts for such things as salaries, utilities and day-to-day operations.
- 2. **Debt:** The debt tax rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts forprincipal and interest on bonds and other debt secured by property tax revenue.

The rollback tax rate for a county is the sum of the rollback tax rates calculated for each type of tax the county levies. In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a taxing unit's debt service will cause the effective tax rate to be higher than the rollback tax rate.

SECTION 3: Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing orabolishing the additional sales tax. If approved, the taxing unit must reduce its effective and rollback tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its effective tax rate and/or rollback tax rate because itadopted the additional sales tax.
