Notice About 2023 Tax Rates

Property Tax Rates in Farm to Market.

This notice concerns the 2023 property tax rates for Farm to Market.

This notice provides information about two tax rates used in adopting the current tax year's tax rate. The no-new-revenue tax rate would Impose the same amount of taxes as last year if you compare properties taxed in both years. In most cases, the voter-approval tax rate is the highest tax rate a taxing unit can adopt without holding an election. In each case, these rates are calculated by dividing the total amount of taxes by the current taxable value with adjustments as required by state law. The rates are given per \$100 of property value.

Taxing units preferring to list the rates can expand this section to include an explanation of how these tax rates were calculated.

To see the full calculations, please visit Texas.gov/propertytaxes for a copy of the Tax Rate Calculation Worksheet.

Unencumbered Fund Balances.

The following estimated balances will be left in the taxing unit's accounts at the end of the fiscal year. These balances are not encumbered by corresponding debt obligation.

Type of Fund	Balance
Farm to Market Maintenance & Operation	\$0

Current Year Debt Service.
