

PRESS RELEASE

10/24/2024

The Polk County Clerk assumed responsibility for election administration (voter registration) for all Polk County entities in January 2023. Standard practice is to work in conjunction with the contracting entities (cities, schools and utility districts) to verify the official list of registered voters. Voter lists were provided upon request for verification purposes.

At this time, the City of Livingston and Livingston I.S.D. information has been reviewed. However, if your ballot appears to be incorrect, please notify a poll worker before casting your vote. Prior to going to vote, please verify your location and ballot. Several residents were confused because they were ineligible to vote in the City of Livingston elections. At this moment, it appears that portions of Precinct 18 and Precinct 21 were the only voting boxes affected. All that information was updated prior to polls opening on Thursday, October 24, 2024.

This is the first time Polk County has held a joint election that included National, State, County, Cities and School Districts. We cannot emphasize enough that you review and verify your ballot before you cast your vote.

Schelana Hock

Polk County Clerk
