PREPARE DON'T PANIC

Today I was contacted by the Texas Commission on Jail Standards and strongly advised to suspend Inmate Visitation until further notice. Comanche County had previously made the decision to continue visitation based on Community data. Still today Comanche County has no confirmed cases of COVID-19. I have continued to work with City, County, and State Officials to be prepared for the ever developing unprecedented events. At this time I am following TCJS recommendations including suspending Visitation. I will update the Comanche County Jail page (co.comanche.tx.us) and Facebook with information about ongoing events pertaining to COVID-19 procedures changes. We are in the process of exploring option available through our phone provider and other privileges to balance the inmate's time in the facility. I ask for your continue patience as my staff and I are trying to follow the latest recommendation to keep the Inmates, Staff and Public Safe.

Chris Pounds
Sheriff
