MEDINA COUNTY REPORTS ADDITIONAL CASE OF COVID-19

Medina County is reporting its 7th case of COVID-19. It is in the 78861 zipcode. This case is associated with travel within Texas but outside of Medina County. They are self-isolating at home. At this time, there have been no identified local businesses that this individual may have visited.

The Texas Department of State Health Services (DSHS) is supporting Medina County by identifying any close contacts these patients may have had while sick, so they can be isolated and monitored for symptoms and tested if needed.

If you believe you may have been exposed to someone affected by COVID-19, monitor yourself closely for symptoms such as fever, cough, sore throat, and shortness of breath for 14 days after the exposure. If you experience any of these symptoms and do not need urgent medical attention, isolate at home and contact your healthcare provider first before going in.

Please continue to practice good hygiene by proper handwashing, avoid touching your face and clean and disinfect frequently touched surfaces often. Continue to practice social distancing and leave home for essential needs only. If you are an essential business continue to practice social distancing in your workplace and good hygiene practices.

The public can find up-to-date coronavirus information at www.medinacountytexas.org.
