DSHS DASHBOARD SUMMARY

As of 4:00 p.m. today, September 2, 2020, according to the Texas Department of State Health Services (“DSHS”) Dashboard, Bee County currently has

335 active cases;
1,257 recovered cases; and
1,621 total cases (non-prisoner and prisoner) since tracking began.

The Dashboard also reflects 23 fatalities in Bee County.

Bee County is situated in DSHS Region 11. Region 11 tracks non-inmate COVID-19 cases in Bee County, including contact tracing and quarantine management. The DSHS Dashboard, on the other hand, is maintained by DSHS in Austin, and in Austin, DSHS counts both non-inmate and inmate cases together. We understand that the Dashboard numbers do not always align with our **confirmed** cases and, like today, might not even add up. We have no control over the DSHS Dashboard.

Region 11 of DSHS will not provide Bee County with any confirmation or information of Bee County COVID-19 deaths; that information will be published by DSHS on its Dashboard only.

With respect to COVID-19 deaths, DSHS reports the following dates of death for each of the 23 fatalities of Bee Countians: 1 on July 4; 1 on July 6; 2 on July 13; 2 on July 16; 2 on July 21; 1 on July 24; 1 on July 28; 1 on August 1; 1 on August 2; 1 on August 5; 1 on August 6; 2 on August 9; 1 on August 11; 1 on August 12; 1 on August 14; 1 on August 15; 1 on August 16; 1 on August 17; and one not yet designated.

<i>Totals:</i>	<i>1</i>	<i>625</i>	<i>52</i>	<i>182</i>	<i>860</i>

The Texas Department of Criminal Justice (“TDCJ”) Dashboard, reflects a total of 1 active inmate cases as set out above. The TDCJ Dashboard reflects 625 recovered inmate cases. These numbers are fluctuating downward and upward, whereas our community case count only increases, which impacts the confirmed total case count, but the larger data set of total cases means that the impact of the TDCJ fluctuation is less dramatic, but the issue persists.

The TDCJ Dashboard also reflects a total of 52 active employee cases. The TDCJ Dashboard reflects a total of 182 recovered employee cases.

With a total of 626 inmate cases (active and recovered), and 991 community cases, the Bee County total is: **1,617 total cases since tracking began.**

PARTING SHOTS

Make no mistake, every time one of us lets our guard down, decides that the guidelines, orders, and reasonable requests do not apply to our particular situation—every time, we become a part of the pathway for COVID-19. Don't be part of the pathway; be a dead end, a stop sign, a barrier.

If you have read to the end, thank you.
